MAINTENANCE

Your new Speakman Product is designed for years of trouble-free performance. Keep it looking new by cleaning it periodically with a soft cloth. The use of harsh chemicals and abrasives on any of the Speakman custom finish products may damage the finish and void the product warranty. Please be sure to only use approved cleaners. Please contact Speakman for any clarification of acceptable

WARRANTY

•

Additional warranty information can be found at: www.speakman.com

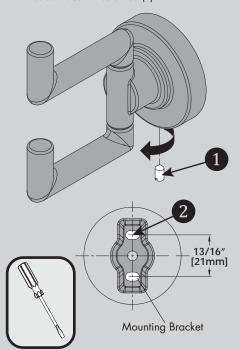

- Do not over-tighten any connections or damage
- Be sure to read instructions thoroughly before beginning installation.
- Instruction images shown are for reference only and apply to all models numbers shown.

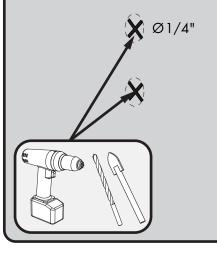

SAFETY TIPS

0

- Cover your drain to prevent loss of parts.
- This item is **NOT** designed for use as a grab bar. Do not mount in locations where product is likely to be used as a grab bar.
- Loosen, but do not remove the Set Screw from the base of the product post (1) with a Flat Tip Screwdriver.
 - Place the product in the desired mounting location and use a Pencil to lightly mark the outline of the post.
 - Center the Mounting Bracket within the marked post location and mark where the screw holes will be drilled (2).

If mounting directly to wood stud, Plastic Anchors are not required. If mounting to tile, acquire proper mounting hardware capable of supporting the accessory in use. If mounting to drywall, drill guide holes at marked locations using a Drill equipped with a Ø 1/4" bit.

Insert Plastic Anchors into drilled holes and screw in the Anchor using a Phillips Head Screwdriver, or a Drill equipped with a Phillips Driver Bit until the head is flush with the wall surface.
