ASSEMBLY INSTRUCTIONS

ASSEMBLY INSTRUCTIONS

STEP 1

- Put the front legs and back legs into given holes.
- Tap gently with rubber mallet or small hammer.

STEP 2

- Fasten (8) "A" Screws.

The diagram shows the assembly of a stool. In Step 1, the front and back legs are being inserted into the frame. In Step 2, the legs are being fastened with screws. A detailed inset shows the screw being driven into the leg joint.

A simple line drawing of a building facade. It features a central entrance with a triangular pediment supported by two columns. On either side of the entrance are rectangular windows, each with a small rectangular detail inside, possibly representing a shutter or a pane. The building has a slightly irregular, hand-drawn appearance.

- Put the front legs and back legs into given holes.
- Tap gently with rubber mallet or small hammer.

The diagram shows a chair with a rectangular seat and four legs. The front view is labeled 'FRONT' and the back view is labeled 'BACK'. Arrows indicate the direction of the views. The front view shows the seat and the front legs, while the back view shows the seat and the back legs. The legs are connected to the seat by a frame. The front legs are shown with a small detail of a joint or fastener. The back legs are shown with a small detail of a joint or fastener. The seat is shown with a small detail of a joint or fastener. The diagram is a technical drawing of a chair, showing the front and back views of the seat and legs.
