CARE and MAINTENANCE

Wipe regularly with clean water and a damp, clean, soft white cloth.

General cleaning can be done as needed with a mild detergent and water solution. Always rinse with clean water and dry.

For heavy soiling, dampen a soft white cloth or soft bristle brush. Use care as scrubbing can damage the surface.

More difficult stains can be treated, but this should be occasional, not daily, cleaning. ANY cleaning solution used must be removed with clean water and a clean white cloth. Cleaning residue left on the material can cause it to dry out and crack, or affect the color.

DO NOT use any cleaners with corrosive ingredients (lye, acids or ammonia).
