

Fire Bowl Instructions

Thank you for purchasing the Caldera Fire Co. fire bowl for safe indoor enjoyment of the fire pit experience. This device is intended to be used in a safe and responsible manner in accordance to the following instructions and warnings, as well as your good judgement. Keep away from small children, keep unit within sight, and keep away from combustibles.

PROUDLY MADE IN THE USA

LIGHTING INSTRUCTIONS

1. Place fire bowl on a flat, stable and level surface away from any combustible materials.
2. Pour 70% isopropyl rubbing alcohol or 91% isopropyl rubbing alcohol into the reservoir. **DO NOT OVERFILL.** The reservoir will be about 3/4 full.
3. Light the fuel with a long lighter.

EXTINGUISHING INSTRUCTIONS

1. Do NOT blow out the flame. Cover the flame with a non combustible flat object like a plate or bowl to extinguish. Be sure flame is completely out.
2. If there is residual fuel in the reservoir, be sure to completely empty the unburned fuel before storage.

DISCLAIMER

The Caldera Fire Co. Fire Bowl is intended for the safe use and proper care by the owner and its users. Discontinue use of any fire bowl that shows any sign of cracking or degradation. Failure to follow any of these guidelines set forth and any neglect or misuse of this product may result in serious personal or property damage and/or serious injury or death.

WARNING:

TO PREVENT FIRE OR SERIOUS INJURY

Use 70% isopropyl rubbing alcohol or 91% isopropyl rubbing alcohol. Do not use any solid fuel, gasoline, kerosene, propane, or any other combustible materials as fuel.

The Fire Bowl will burn for approximately 40 minutes and the concrete will get hot on the outside. Do not handle the fire bowl when it is hot or when it is lit

Never overfill the reservoir.

Do not refill when the fire bowl is still burning.

Do not use the fire bowl for more than 90 minutes at a time without allowing it to cool completely.

Never dip anything in the fuel or touch the flame.

Never put anything in the flame.

Do not move the fire bowl when lit and keep it on a stable, horizontal surface.

Keep at least 24" side clearance and 48" overhead clearance to any combustible materials.

If the concrete shows any signs of damage, discontinue use immediately.

Never leave a lit fire bowl unattended and parental supervision required.

Use a long lighter to ignite.

If all of the fuel does not burn, always empty the unlit remaining fuel from the reservoir before storage.

Wait until after the flame is extinguished and the unit is cool before storage.

To extinguish the flame, cover with a flat non-flammable object like a plate or bowl cover. Never blow out the flame.

WARNING: TO PREVENT FIRE AND SERIOUS INJURY

Burn fire bowl within sight. Keep away from drafts and vibrations. Keep out of reach of children and pets. Never burn on or near anything that can catch fire. The fire bowl will get hot so do not handle it when it is lit or when it is hot. Follow the guidelines set above.
