

- Overflow plate installation instruction

Step 1:

Apply a small amount of silicone adhesive to the back of the overflow plate along the bump.

Step 2:

Insert the back of the overflow plate into the hole on the tub. Push it to ensure contact.

Make sure that the overflow plate is level.

- Pop-up drain cover installation/replacement instruction

1. Push to pop up the drain cover.
2. Unscrew the drain part by hand. Gloves or other protection methods are recommended to protect your hands and the drain cover from being scratched.
3. Then unscrew the drain cover. Replace it with the new drain cover.
4. Install the drain part back to position.
