

THE BATTERY

12V 100Ah

The battery is a sealed lead acid battery (SLA) with a capacity of 100Ah at 20°C. It is designed for use in marine applications and is suitable for use in a wide range of environments. The battery is constructed from high quality materials and is designed to provide a long service life.

The battery is designed to provide a long service life and is suitable for use in a wide range of environments. It is constructed from high quality materials and is designed to provide a long service life. The battery is designed to provide a long service life and is suitable for use in a wide range of environments. Technical specifications

Parameter	Value	Unit
Nominal voltage	12V	V
Nominal capacity	100Ah	Ah
Operating temperature	-20°C to 50°C	°C
Self-discharge rate	3% per month	%/month
Weight	22kg	kg
Dimensions (L x W x H)	330 x 175 x 225	mm

DISASSEMBLY

The battery is designed to be disassembled into two main sections: the top section (1) and the bottom section (2). The top section (1) contains the main battery cells and the bottom section (2) contains the battery management system (BMS) and other components.
