

INSTALLATION INSTRUCTIONS

WARNING: BE SURE THE ELECTRICITY TO THE WIRES YOU ARE WORKING ON IS SHUT OFF; EITHER THE FUSE IS REMOVED OR THE CIRCUIT BREAKER IS TURNED OFF. TURNING THE POWER OFF USING THE LIGHT SWITCH IS NOT SUFFICIENT TO PREVENT ELECTRICAL SHOCK.

NOTE: The important safeguards and installation instructions appearing in this guide are not meant to cover all possible conditions or situations that may occur. It must be understood that common sense, caution, and care, are factors which cannot be built into any product. These factors must be supplied by the person(s) installing this unit.

READ & SAVE THESE INSTRUCTIONS

CAUTION: If you feel you do not have enough electrical wiring experience, either refer to a do-it-yourself wiring handbook or have your lighting fixture installed by a qualified, licensed electrician.

UNPACK THE PACKAGE

Check the contents to be sure everything is included

Tools Needed: Personal Protection equipment, Screwdriver, Step ladder, Wire cutters, wiring supplies as required by electrical code.

INSTALLATION & OPERATION INSTRUCTIONS GENERAL

Before starting the installation, disconnect the power by turning off the circuit breaker or by removing the appropriate fuse at the fuse box. **Turning the power off using the light switch is not enough to prevent electrical shock.**

All electrical connections must be in accordance with local and National Electrical Code (NEC) standards. If you are unfamiliar with proper electrical wiring connections, obtain the services of a qualified electrician.

Remove the fixture and the mounting packages from the box and make sure that no parts are missing by referencing the illustrations in the installation instructions.

Be sure to read these installation instructions and review the diagrams thoroughly before installation.

West Ninth Vintage Downrod Light Fixture Installation Instructions

All West Ninth Vintage Light fixtures are manufactured to be installed to a standard round junction box. The instructions are written to start with a pre-existing junction box that is controlled by a switch. All West Ninth Vintage light fixtures are dimmer switch compatible. For the best results be sure that the light bulbs used are also dimmer switch compatible.

1. Remove all items from their packaging.
 - a. Light Fixture (actual light fixture will vary – but all fixtures that have a downrod follow these instructions)

- b. Mounting hardware
 - i. 6" and 12" downrods with coupler
 - ii. Ceiling mounting plate

NOTE: THE 12" AND 6" DOWNRODS CAN BE JOINED WITH THE INCLUDED COUPLER TO MAKE A SINGLE ROD OF ABOUT 18".

2. Determine the correct length downrod for your installation and screw into the Ceiling Canopy with the WNV logo facing the downrod
3. Run the twisted black power wire from the top of the fixture through downrod and out of the Ceiling Canopy
4. Screw the Ceiling Canopy and Downrod assembly into the Canopy affixed to the light fixture
5. With assistance, hold the fixture up to the junction box. Connect electrical wires from fixture to existing power source. Connect the ground wire to the green grounding screw on the back of the Ceiling Canopy
6. Use two mounting screws included to mount Ceiling Canopy to your electrical box.
7. Align the fixture in the direction desired
8. If you purchased the version with cages, remove the screws from the cage and fit around Black Porcelain Sockets. Tighten the cages using screws.
9. Reconnect the power to the circuit (breaker or fuse)
10. Install your light bulbs and enjoy!
