

HTL-Tower Shelf

INSTALLATION INSTRUCTIONS

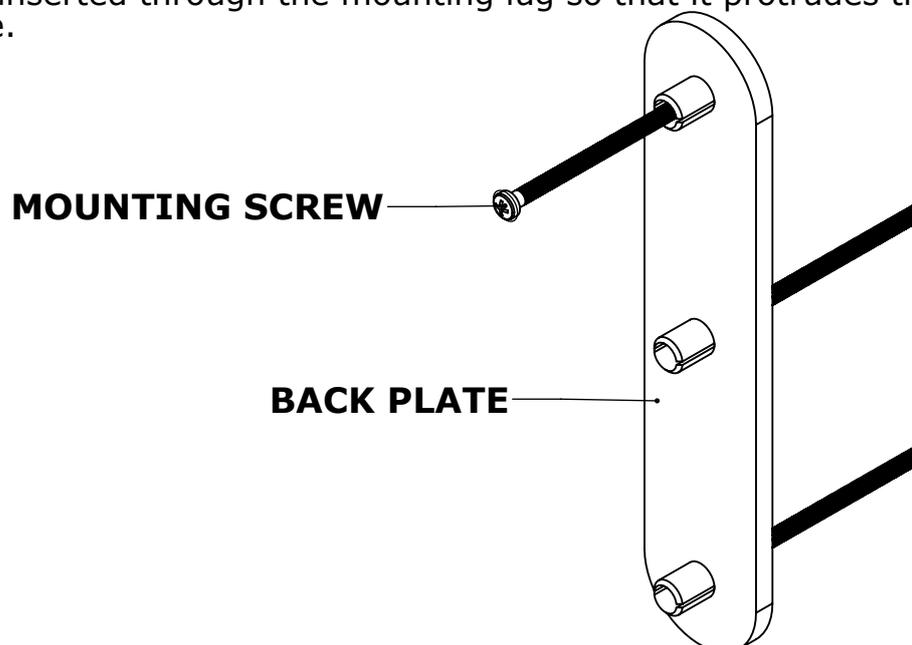

Step 1: Installing Mounting Lug to Backplate

The backplates have 3 mounting lugs attached to them with the use of a short 1/8 Pipe Nipple (hollow in center) .

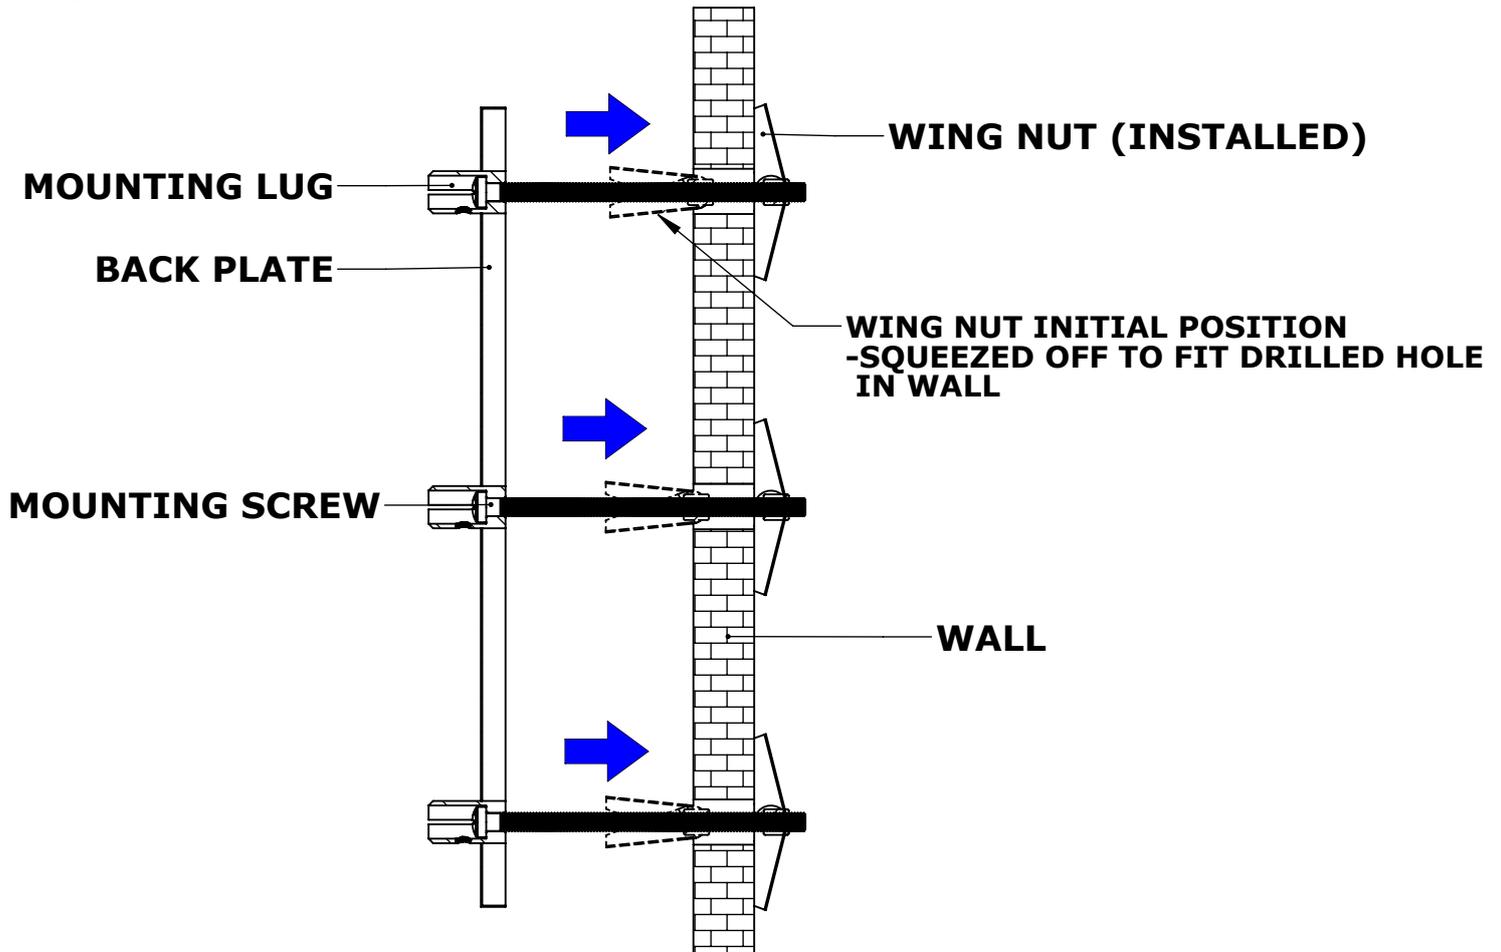

Step 2: Mounting of Screws

Screws are inserted through the mounting lug so that it protrudes through other side of backplate.

Step 3: Wing Nut Installation

Wing nut is attached to screw and pushed into wall.

SECTION VIEW OF THE INSTALLATION

Step 4: Arms Installation

Backplates are tightened against wall and then three arms are attached to mounting lug with use of set screw.
