

THANK YOU

for your order

DEAR CUSTOMER,

Thank you for choosing this beautiful culinary piece. At Casual Home, customer satisfaction and safety is of our utmost concern. We use only the highest quality natural oil in our finishing process.

To keep these boards in optimal condition, there are many types of oils that can be used to season them. We recommend applying it before the initial use and reapplying it from time to time thereafter. Each cutting board oil has its own unique qualities and has unique interactions with our American Hardwood boards. As such, the important choice is best left to the end user of the boards.

We'd love to hear your thoughts, or see pictures:
