

FURNITURE CARE

OUTDOOR FURNITURE

OUTDOOR FURNITURE:

Wicker | Teak | Metal | Resins | Fabrics & Cushions

OUTDOOR

Just because your outdoor furniture was made to withstand the wear and weather of your porch, patio or deck, doesn't mean that it doesn't need a little care from time to time to keep it fit, functional, and looking great.

Follow these simple cleaning and maintenance tips and your outdoor furniture will continue to add a decorative look to the outdoor areas of your home for many years to come.

WICKER FURNITURE

Clean your Wicker furniture with a small amount of mild soap and warm water and rinse with a garden hose and allow drying before replacing any cushions or pillows. Outdoor Wood Furniture

Most outdoor furniture is finished with several coats of exterior varnish so it is easily clean without damaging the wood finish. Store outdoor furniture indoors or cover well when not in use. Dust regularly with small brush or vacuum. Spills should be taken care of immediately before they harden or stain with a slightly dampened sponge.

TEAK FURNITURE

Teak furniture will weather naturally, taking on a subtle grayish hue and perhaps revealing minor cracks in the wood grain. This is weathering, not damage and will subside over time.

Store outdoor furniture indoors or cover well when not in use. Dust regularly with small brush or vacuum. Spills should be taken care of immediately before they harden or stain with a slightly dampened sponge.

METAL FURNITURE

Metal cast and extruded metal framed furniture is easily sponge cleaned with mild soap and warm water and then rinsed with a garden hose. Avoid using abrasive cleaning pads or detergents when cleaning outdoor metal furniture.

RESINS

Outdoor furniture made of resin (PVC wicker) is the most durable and weather resistant. Stains and dirt are easily removed with a garden hose.

FABRICS & CUSHIONS

For most stains simply clean the area with mild soap and cool water and allow cushion to dry. Our outdoor cushions and fabrics are all mildew resistant.
