

MERCURY

The Story

WONDERWALL STUDIOS

- **THIS IS MERCURY**

Evergreen • Overstock • Elegant • Smooth • Contemporary

Mercury panels represent a selective blend of new hardwoods. Crafted principally of surplus teak, predominantly sapwood, sourced from regional industries. The result is a modern texture, with a clean palette. The lightest coloured panel in our collection.

- **THE WOOD**

Anything left behind or found on the factory floor. That's one description for this type. The combined sum of all our scavengery would be another. Think off-cuts, overstock and production surplus. The woods that end up in this mixed bag come together in this elegant design.

WONDERWALLSTUDIOS

MISSION

To create joyous panelling from salvaged woods
that enriches surfaces and enhances your interior.

We strive for the highest quality to produce
panelling that will last a lifetime.

HOW

We scour the land for woods that can be salvaged
and upcycled, giving discarded timber a second
lease on life. Typically, we'll turn a weathered girder
into a striking collection of unique wall tiles.

It's a reincarnation of sorts.

WHY

We love wood and working with craftspeople.

We love salvaging woods, breathing new life
into something old, worn and weathered.

We love exploration and travel. We love design and
having fun with like-minded souls.

That's why we do what we do the way we do it.
