INSTALLATION AND CARE GUIDE

WATERSPACE LED MIRROR CABINET

E085612

Model : E085612

Designed By: JOAN LAO | SPAIN

PRE-INSTALLATION

Tools Required

ALL WIRING SHOULD BE DONE BY A QUALIFIED LICENSED ELECTRICIAN.

WARNING: To reduce the risk of electrical shock, shut off power before wiring the cabinet.

CAUTION: Requires 120V 20AMP circuit.

CAUTION: The LED mirror must be wired to a GFI (ground fault interrupter) circuit breaker when used in bathrooms and all other locations required by the national electric code.

Materials Included

- 3 wood screws
- 1 set of wall cleats

Materials Required

- 1 2x6 beam cut to size

Model : E085612

Designed By: JOAN LAO | SPAIN

INSTALLATION

Step 1: Determine the ideal location of your new LED mirror.

Mark the locations for the long screws to hang the wall cleat.

NOTE: It is highly recommended the location has at least two studs. Front notch the studs to install a 2x4 horizontal beam for added stability.

Figure 1.

Step 2: Cut an opening in the wall and connect the electrical wires to the housing.

NOTE: Run electrical wires to the opening. An electrical box is recommended inside the opening.

Step 3: Secure the wall cleat to with the long screws provided.

Verify the wall cleat is level.

See Figure 1.

Figure 2.

Step 4: Connect the wires.

Step 5: Secure the cleat in the back of the mirror to the wall cleat. Hide all wires in the opening.

See Figure 2.

PRODUCT CARE AND MAINTENANCE

The fine furniture finish of your new vanity, mirror or other bathroom accessories are designed to protect against normal home use. With proper care, your product will provide years of use and beauty in your home.

General Care Tips

- Test cleaning product on small, discrete area prior to applying to entire surface.
- Wipe surfaces frequently with dry, soft, non-abrasive and lint-free towel.
- Do not allow liquids and moisture to accumulate on the surface of products.
- For warranty information, please visit our website at www.ronbow.com or contact the Customer Service Department at (510) 713-1188.

Wood Surfaces

- If a spill occurs, clean and dry the surface immediately as liquid can soak through the surface and cause greater damage.
- Do not place in direct sunlight. Exposure to sunlight may affect the appearance of your vanity, and the finish will eventually crack.
- Keep away from direct sources of extreme temperatures as heat, cold or moisture from humidity. Color changes, or blemishes in the wood can occur if recommended care of is not met. Try to avoid these extremes.
- Most wood surfaces can be cleaned, or dusted, with any commercial wood cleaning product. For general cleaning, use a non-abrasive, or lint-free cloth while dusting along the wood grain to preserve the wood's characteristics.

Recommended Products

- Pledge Orange Oil, or similar
- Orange-Glo Wood Cleaner

DISCLAIMERS: Wood naturally ages, darkens and changes color over time due to several environmental conditions that may cause materials to vary from their original color and/or to warp, split or crack. These variations are considered to be the nature of the material in relation to their environmental exposure and may be significant over a long period of time. The effectiveness of cleaning Ronbow product is dependant on various factors that include sunlight, smoke, moisture, household cleaners and/or amount of cleaning product used over time. Ronbow cannot guarantee that the above Product Care & Maintenance methods will effectively clean your product.
