

# INSTALLATION INSTRUCTIONS

## **ASSEMBLY AND INSTALLATION**

1. Shut off the power.
2. Use two Junction Box Screws to fix the Mounting Back Plate on the Outlet Box.
3. Connect supply wires to fixture wires and insulate with proper size wire nuts.
  - a) Connect ground wire (green or bare) to fixture ground wire (green or bare).
  - b) Connect common (white) wire to fixture common(white).
  - c) Connect hot (typically black) wire to fixture black wire.
4. Secure the fixture to mounting plate with the two cap nuts and gaskets .
5. To prevent moisture from entering the outlet box and causing a short, use clear caulking (i.e. indoor/outdoor silicone sealant) to outline the outside of the fixture back plate where it meets the wall. Leave a space at the bottom to allow moisture to escape.
