**DESCRIPTION/ DESCRIPCION :** Chest / Commode / Cómoda

A red circle with a diagonal slash over a black silhouette of a person sleeping in a bed.

A technical diagram showing the assembly of the front suspension components. It includes the lower control arm, steering knuckle, and coil spring. The diagram illustrates the correct orientation and connection of these parts, with a red arrow pointing to the lower control arm.

A technical line drawing of a mechanical assembly, likely a part of a machine. The main view shows a perspective of a rectangular block with a series of parallel, slightly curved internal channels or slots. A circular inset at the bottom left provides a magnified view of a specific detail, showing a cross-section of a bolt or screw with a spring washer and a nut, secured with a lock washer and a lock nut.

The diagram illustrates a structural model of a building. It features a central core and a perimeter of columns. A force  $B$  is applied to the left side of the core. A circular inset provides a detailed view of a column joint, showing the connection between the column and the beam.

A diagram of a bolt assembly with four numbered callouts: 1 points to the head of the bolt, 2 points to the washer, 3 points to the nut, and 4 points to the threaded part of the bolt.

**Residential Use Only**
