What will you need?

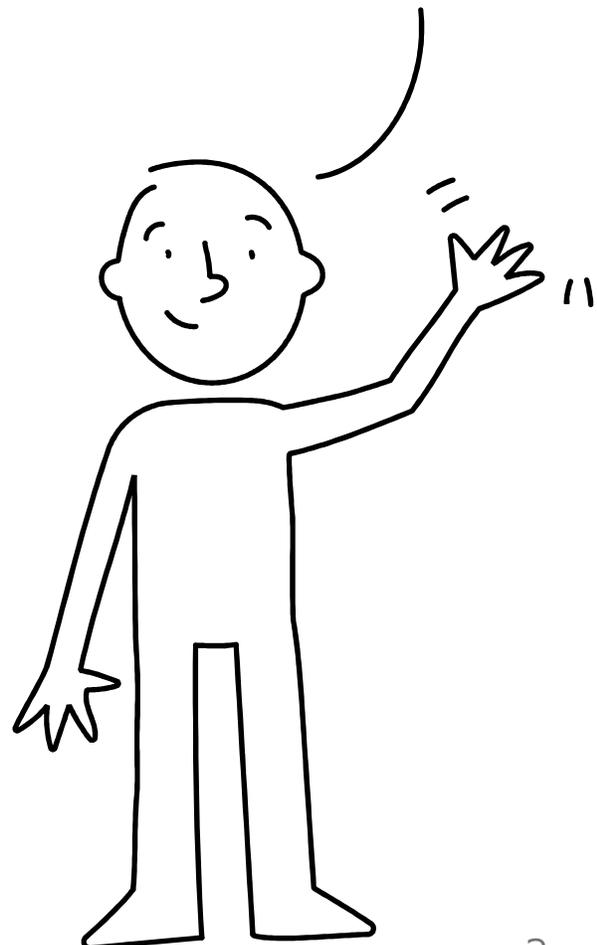

A flat, smooth surface. You can use the cardboard of the box or a rug.

An electric screwdriver isn't necessary, but it can make the work much easier :)

Hi! my name is Armando, and I'll be with you while you assemble this cabinet.

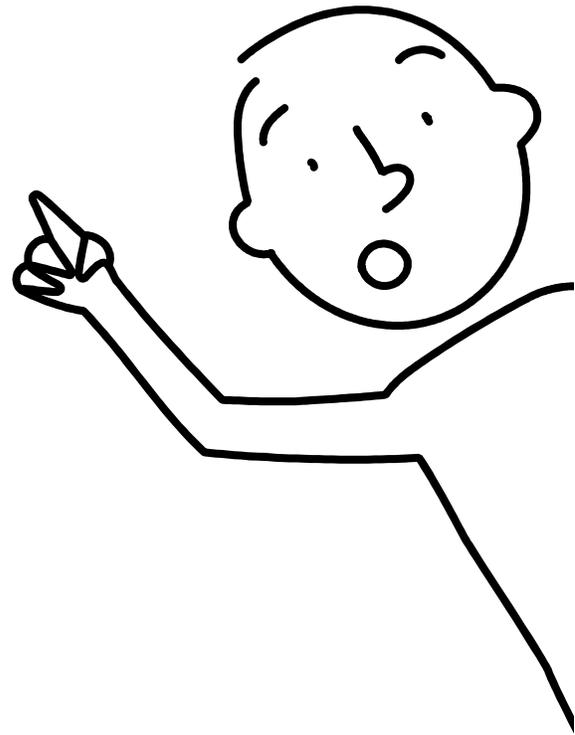

Where should you start?

This is so IMPORTANT!

Over the next few pages is the panel and hardware content for this cabinet.

Please make sure that the quantity of each one is correct, and that everything is in good shape.

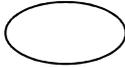

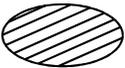

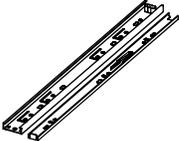

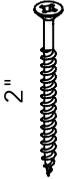

(When the cabinet is already assembled there's no warranty for this)

Panel quantity

A - x1	B - x1	C - x1	D - x1
E - x2	F - x1	G - x1	H - x1
I - x2	J - x2	K - x2	L - x2
M - x2	N - x2	O - x1	P - x2
Q - x2	R - x1	S - x2	

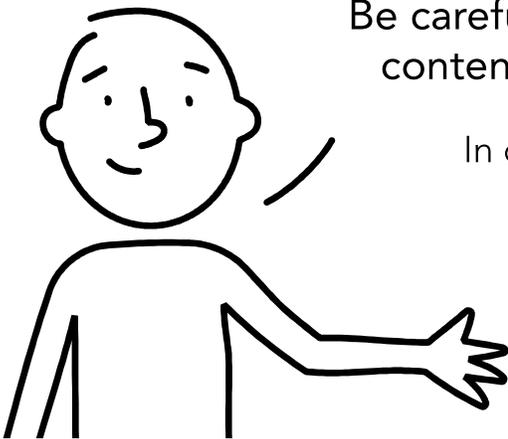

What's in the hardware bag?

 <p>Wood dowel x32</p>	 <p>Spreading bolt x42</p>	 <p>Minifix cam x42</p>	 <p>Cover caps x30</p>
 <p>Cover caps x12</p>	 <p>Hinge + screws x2</p>	 <p>Neumatic arm x2</p>	 <p>Flat head screw x16</p>
 <p>Steel Leg x4</p>	 <p>Wall Fixing Kit + Screws x2</p>	 <p>Slides + screws x2</p>	 <p>2" Drywall screw x8</p>

Be careful!, try not to lose anything from this bag, its content is necessary for assembling your cabinet.

In case something is missing, please call to our customer service line:

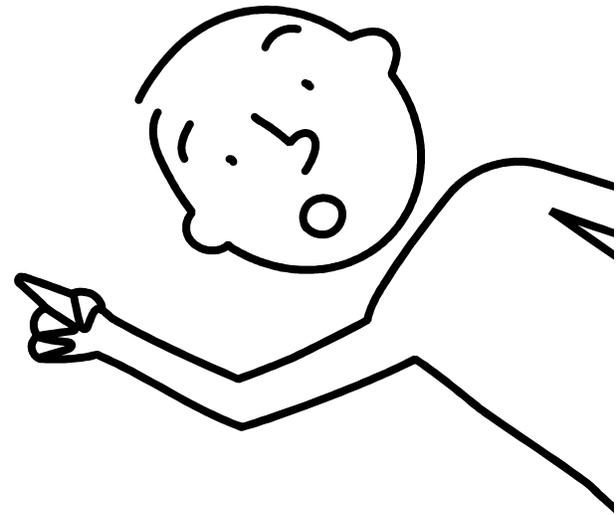

1-888-391-01-66

How do the dowels and Minifix system work?

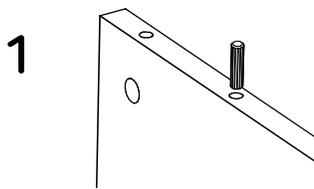

this is so important too!

Everytime you're using one of these connectors during the assembly, you should follow these same steps.

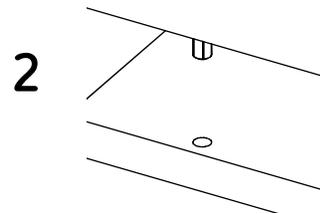

Wood dowels

They are little wooden cylinders.

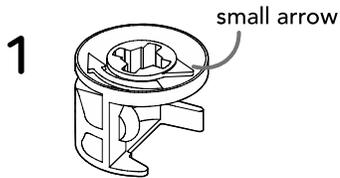

Put in the dowel inside the indicated hole and softly hit it until it's fully inside.

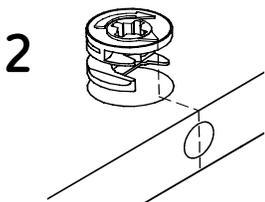

When joining two panels together, don't forget to gently hit the panels to adjust the joint.

Minifix system

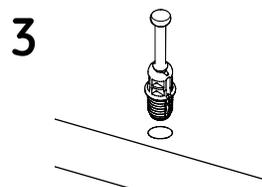

It's a joint compound of two parts: a spreading bolt and a Minifix cam.

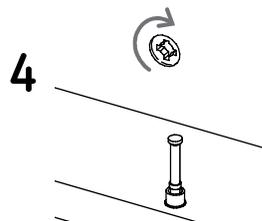

This is a Minifix cam. It has a little arrow on its upper surface.

You should insert these cams with the little arrow pointing towards the drilling on the panel's edge (shown on the left).

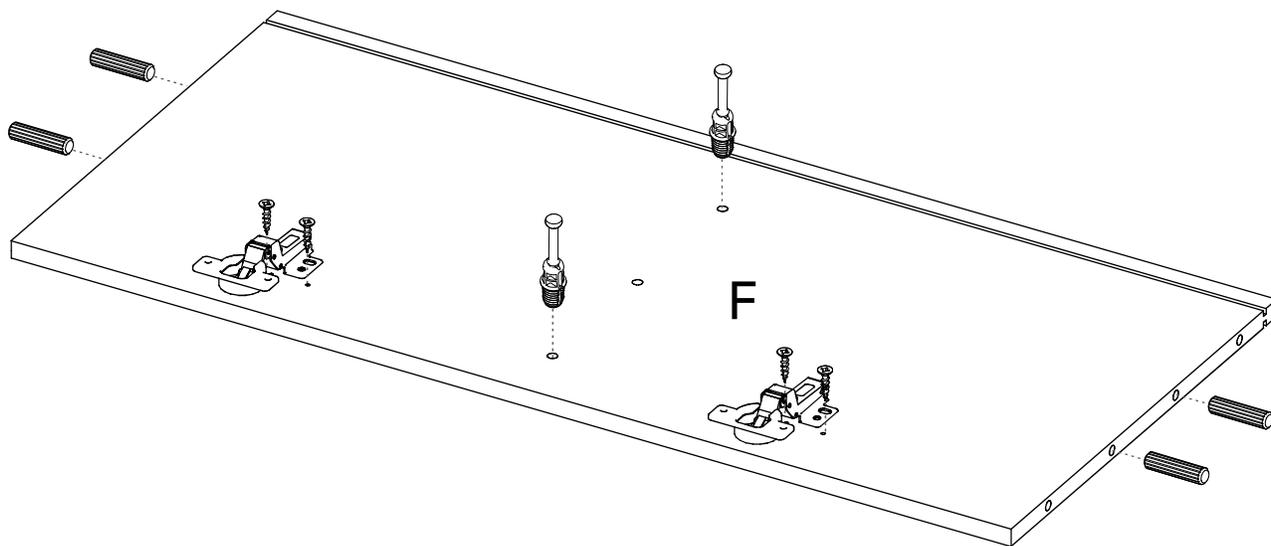

This is a spreading bolt. You should put it with the black plastic part facing down.

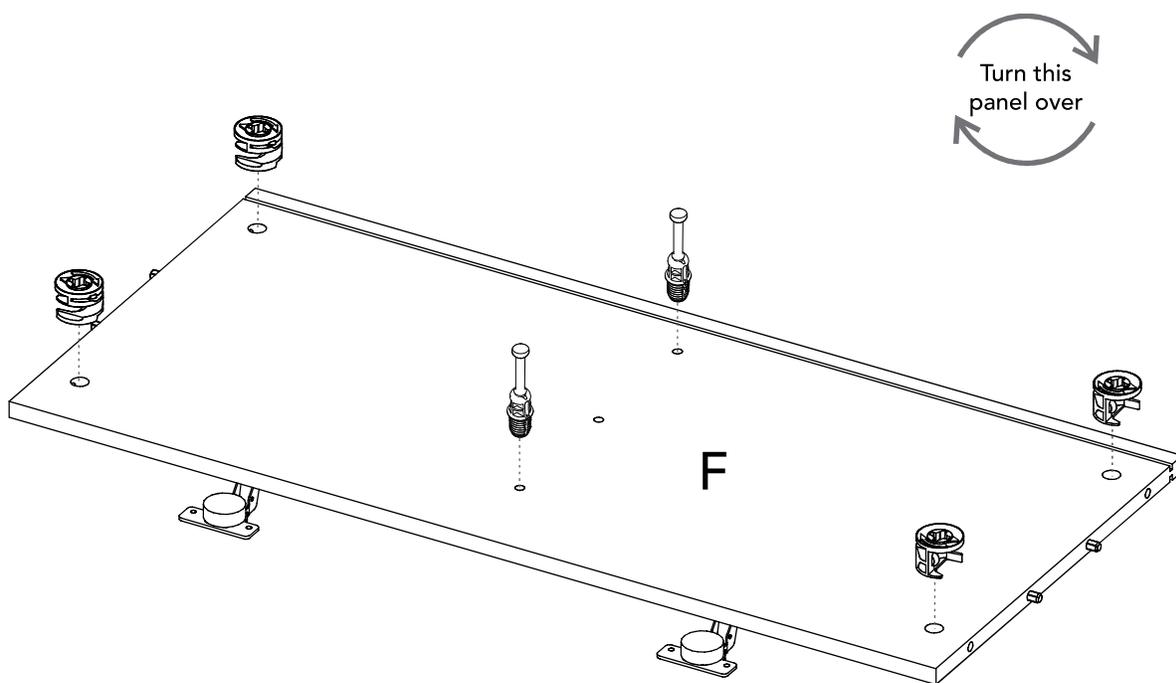

After joining two panels together you should turn the cams 180° with a phillips head screwdriver to adjust and secure the joint.

1 Let's start assembling!

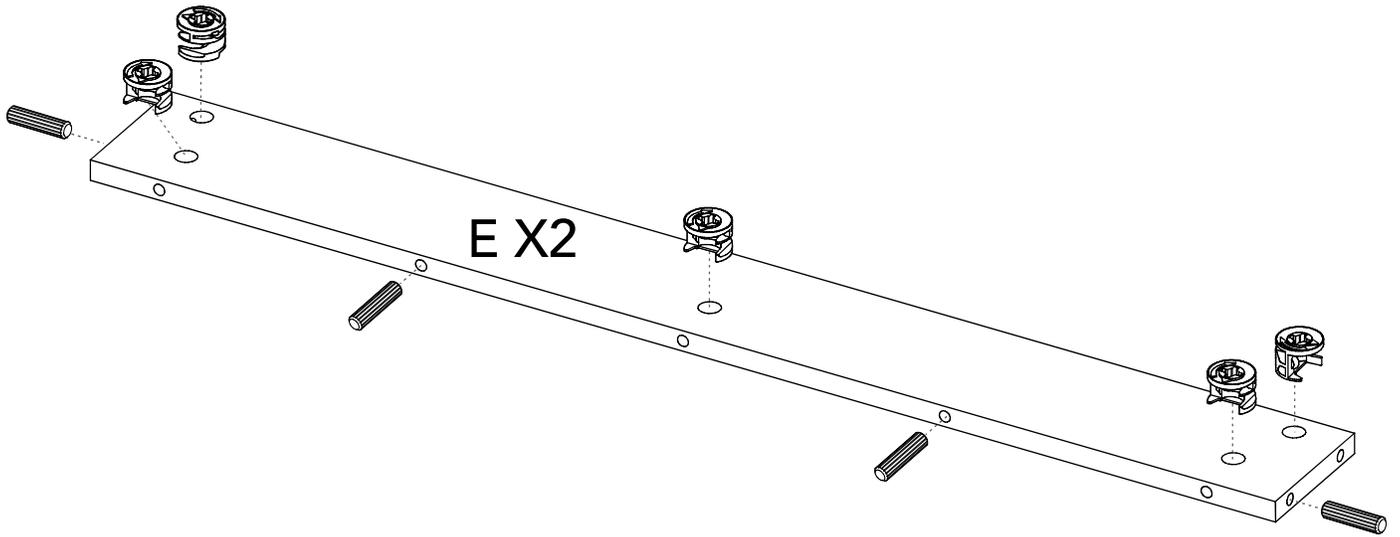

You can see the last page of this manual to have a full look of the panels of this cabinet.

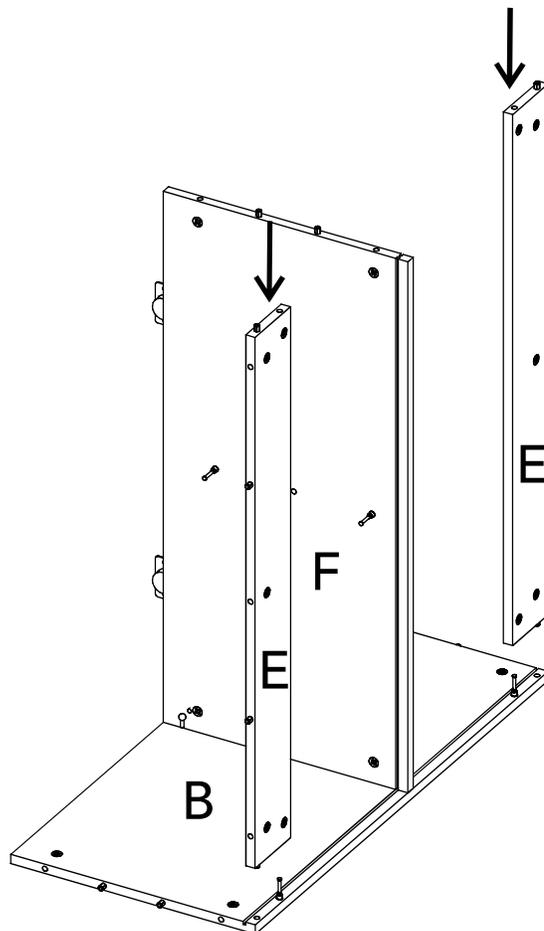

2

5

6

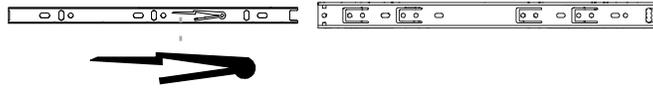

Turn over
the cabinet
very carefully!

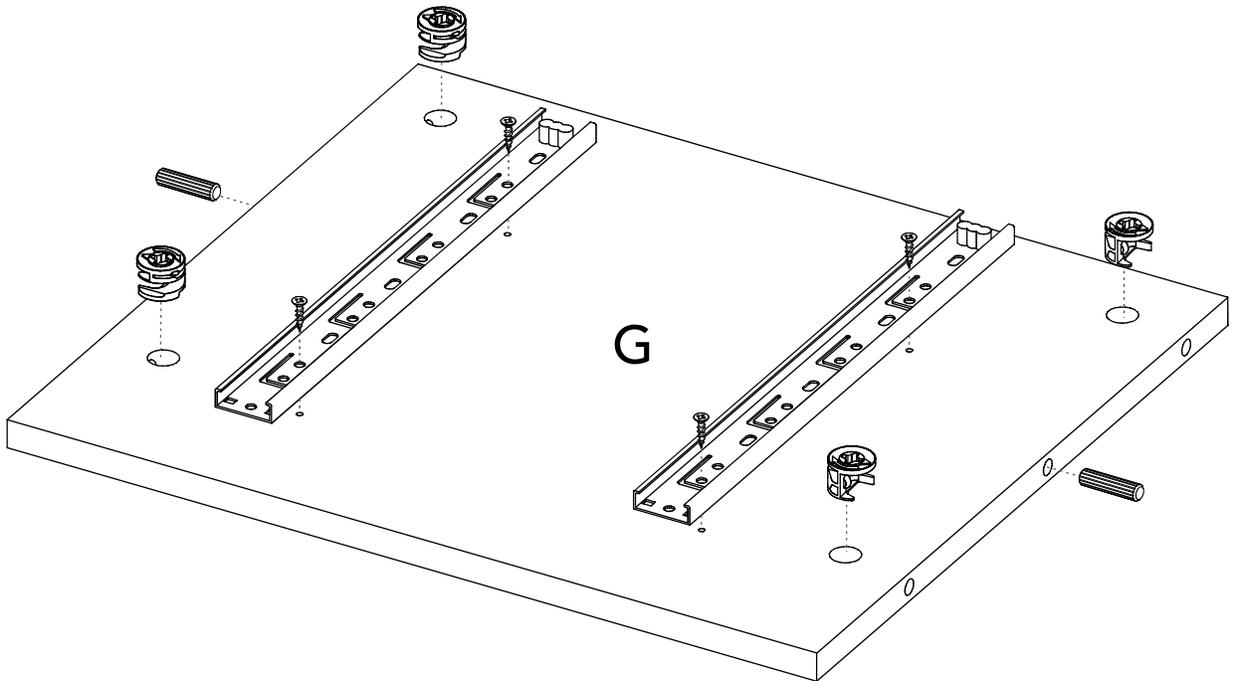

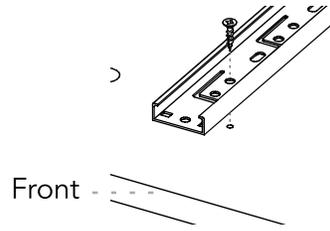

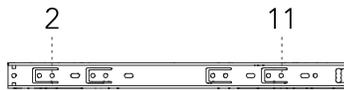

7

Drawer slides installation (apply for steps 7 and 14)

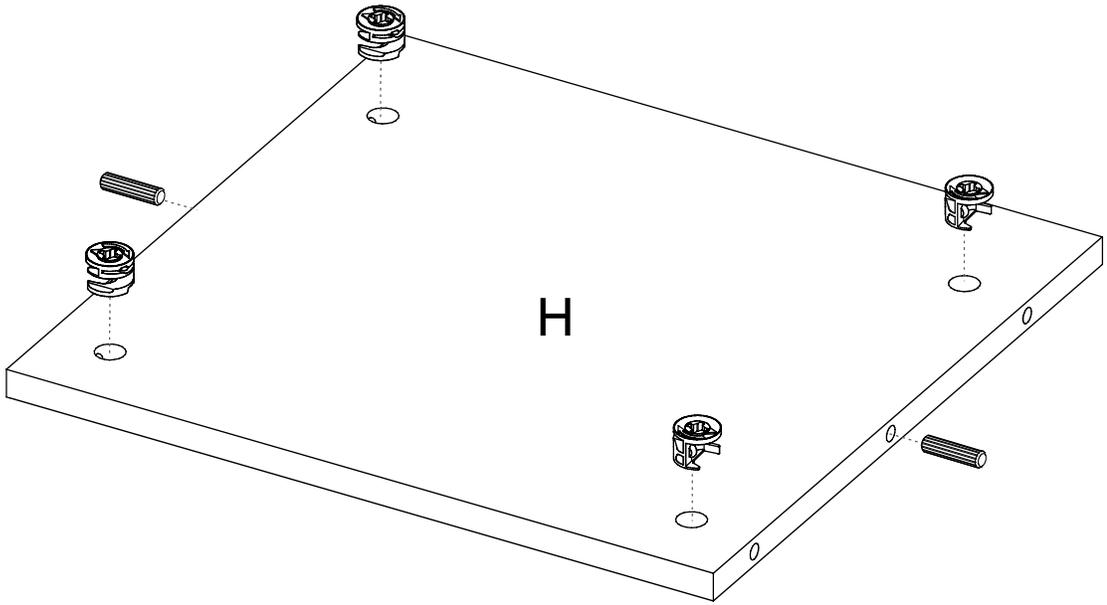

To begin, you must take out the smaller part of the slide, pushing down the black plastic part shown below:

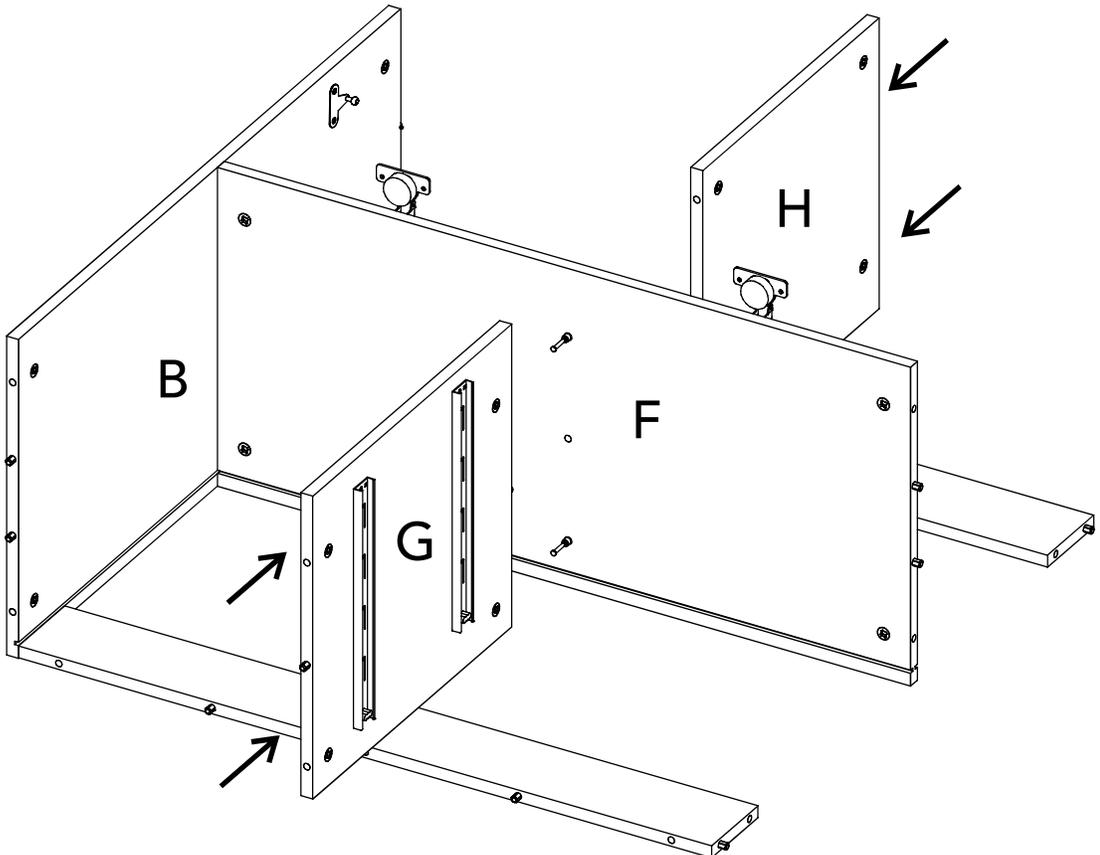

Take the bigger part of the slide and place it over the panel. The plastic stop should go towards the back.

18

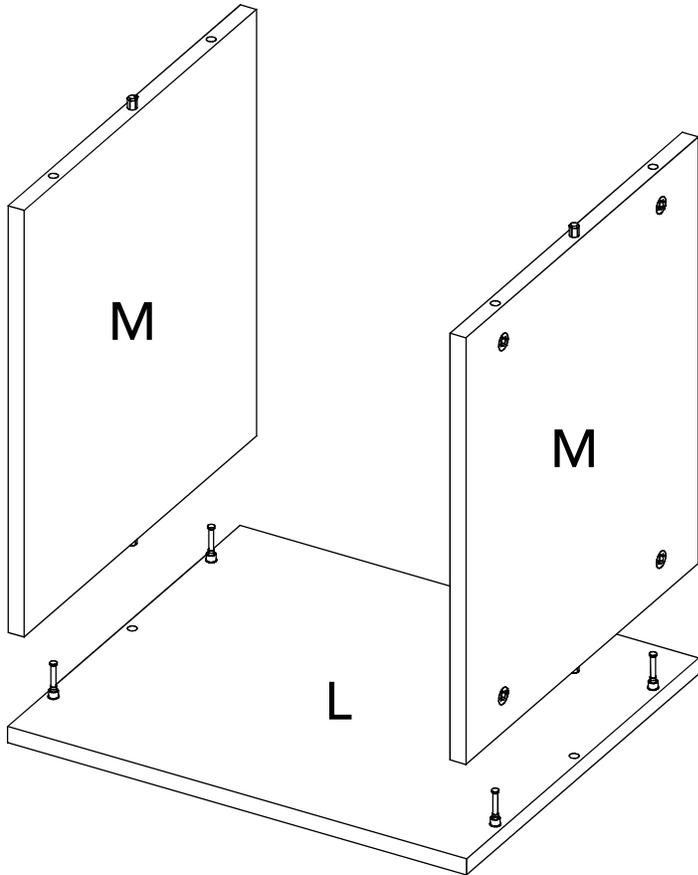

19

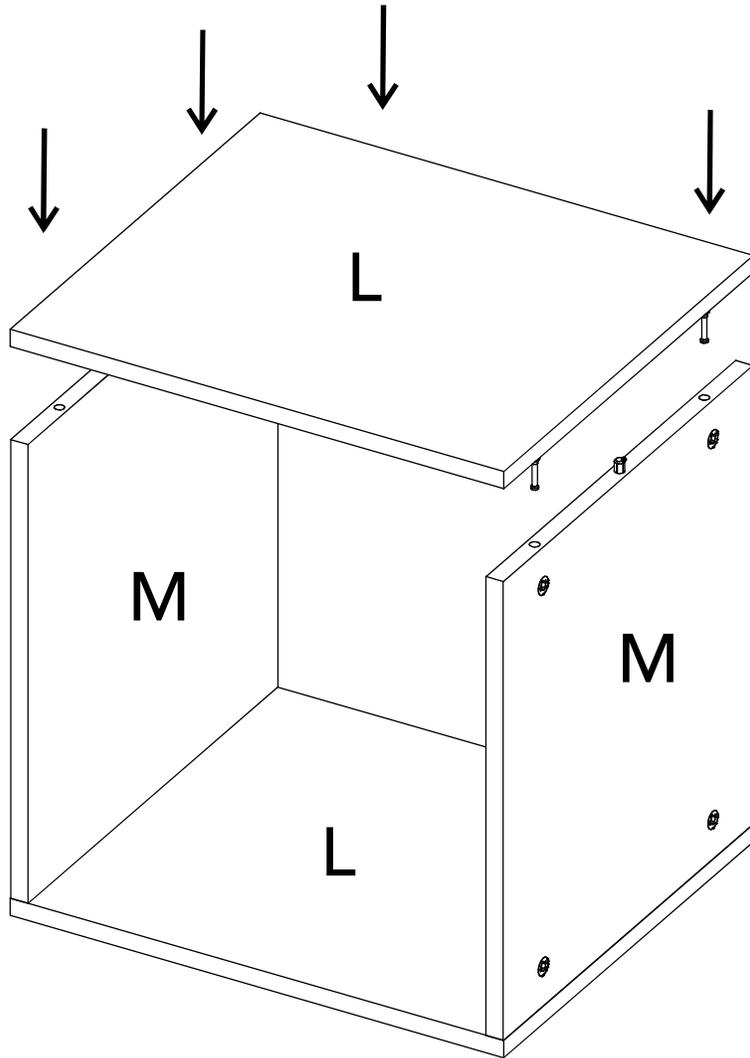

20

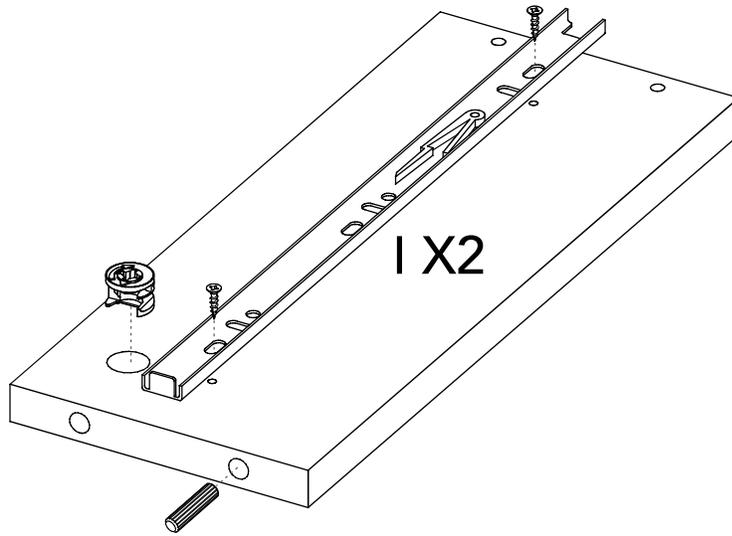

21

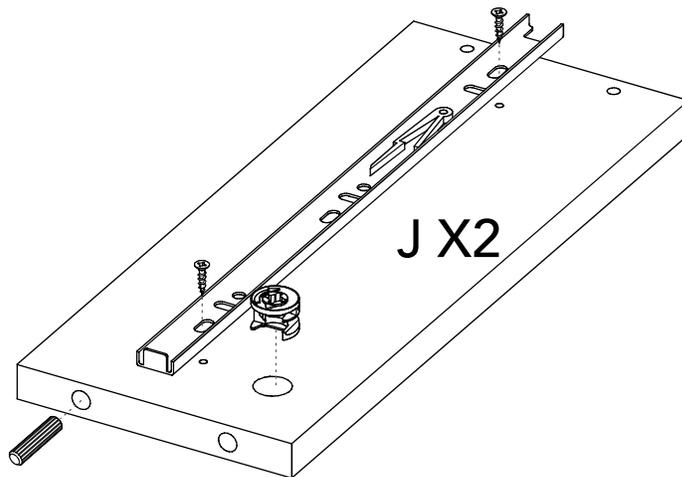

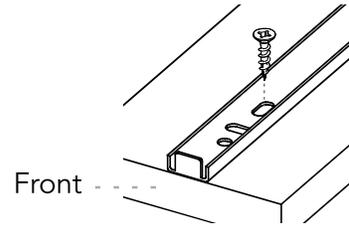

23

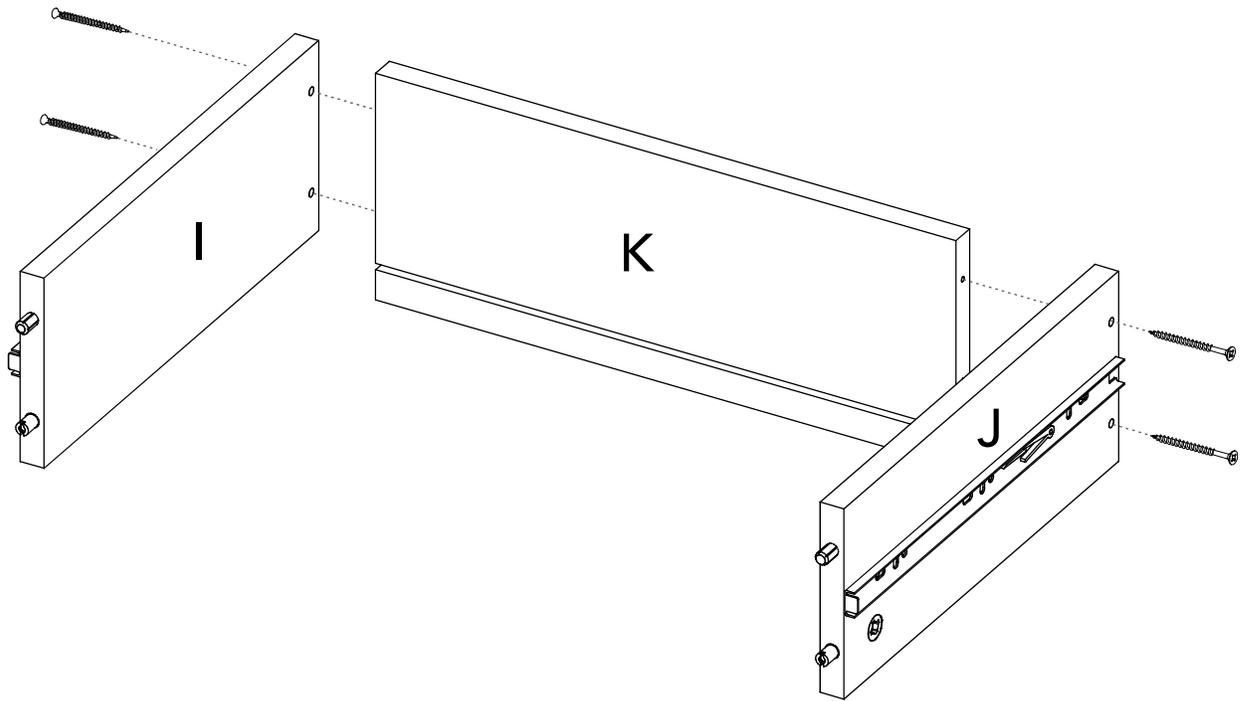

24

Take the smaller part of the slide and place it over the panel. The metallic stop should go at the front.

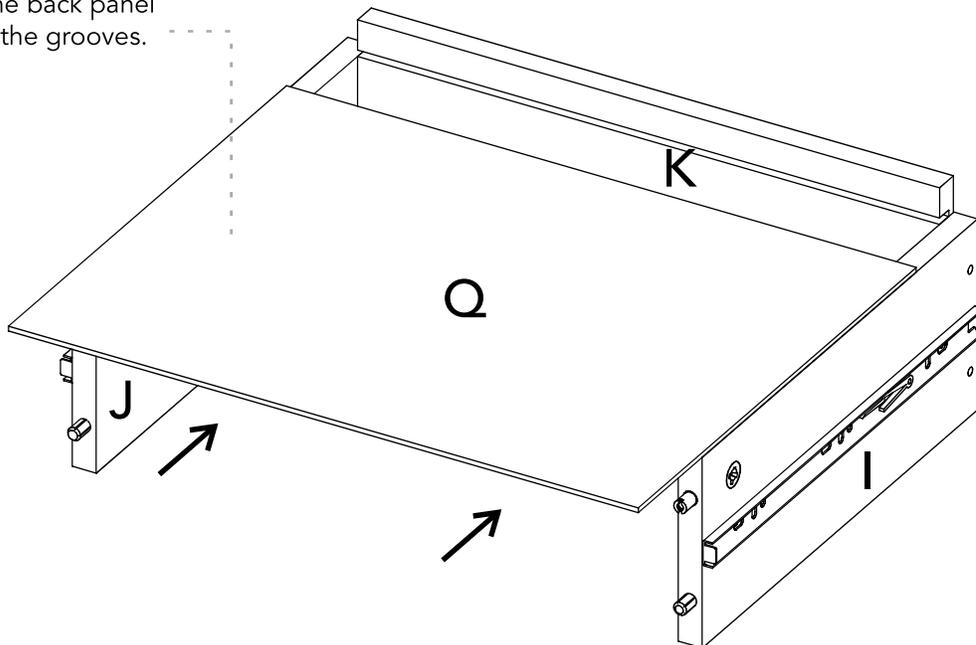

25 X2

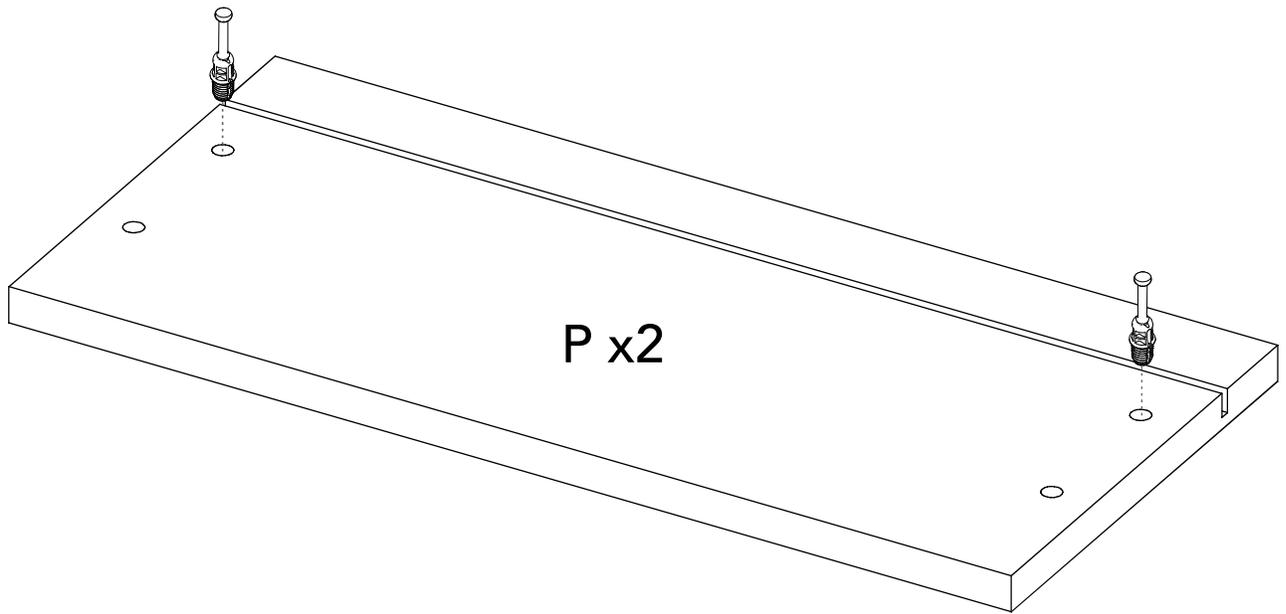

26 x2

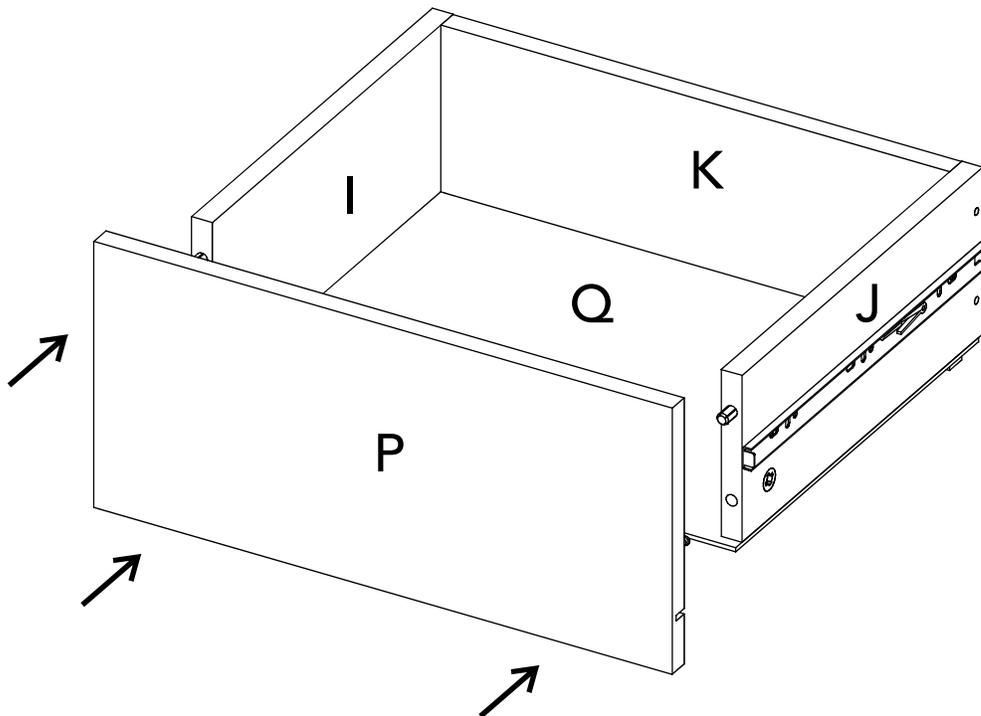

Slide the back panel
inside the grooves.

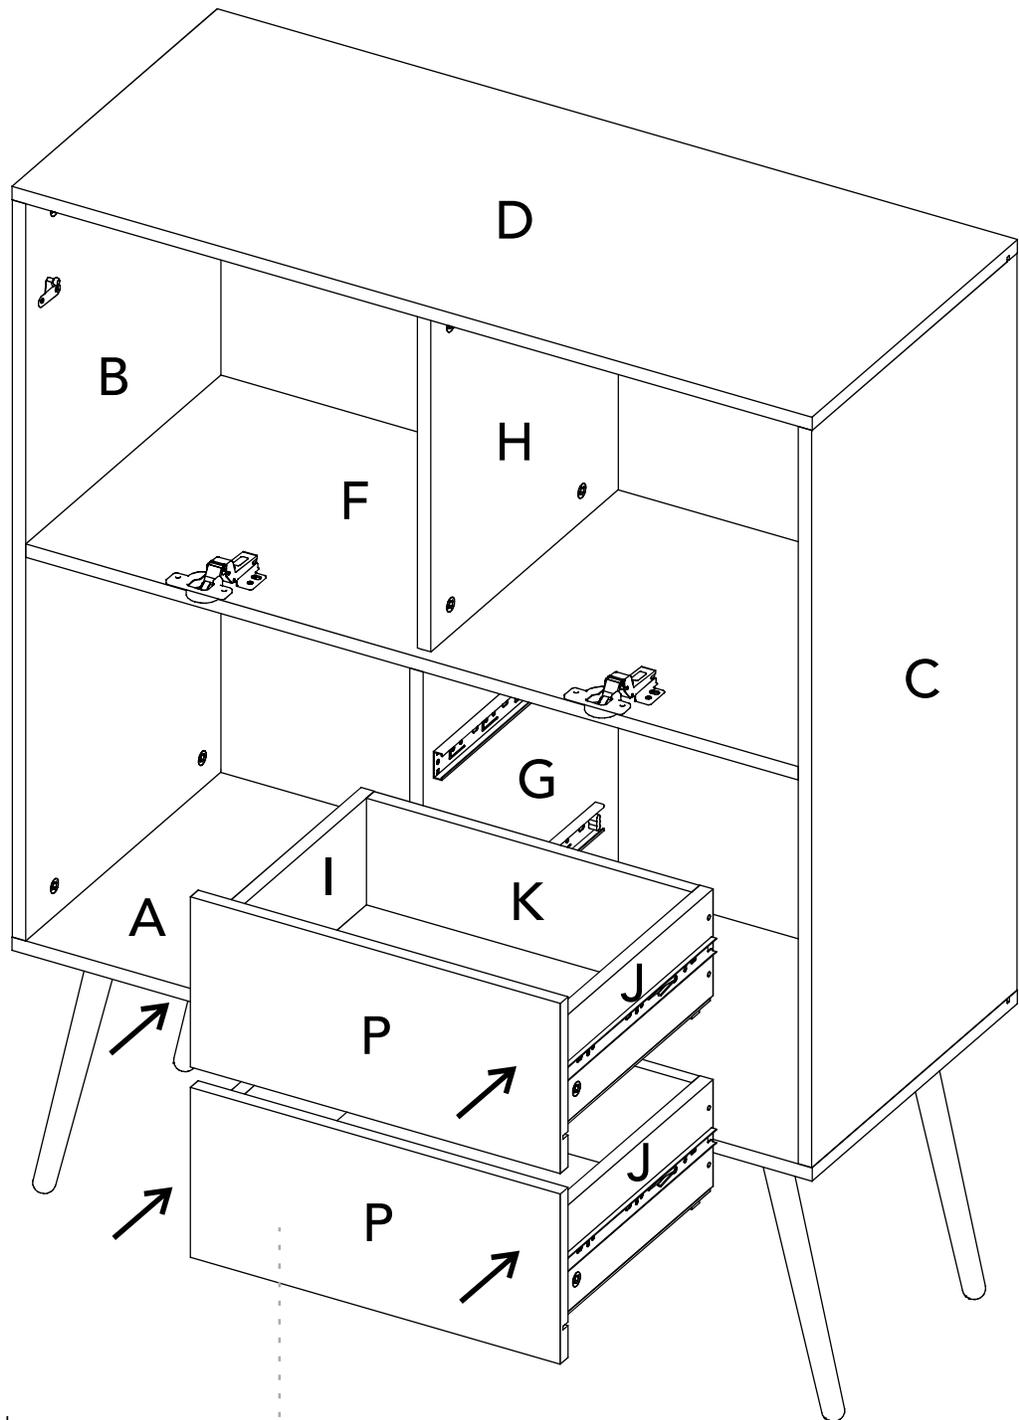

27

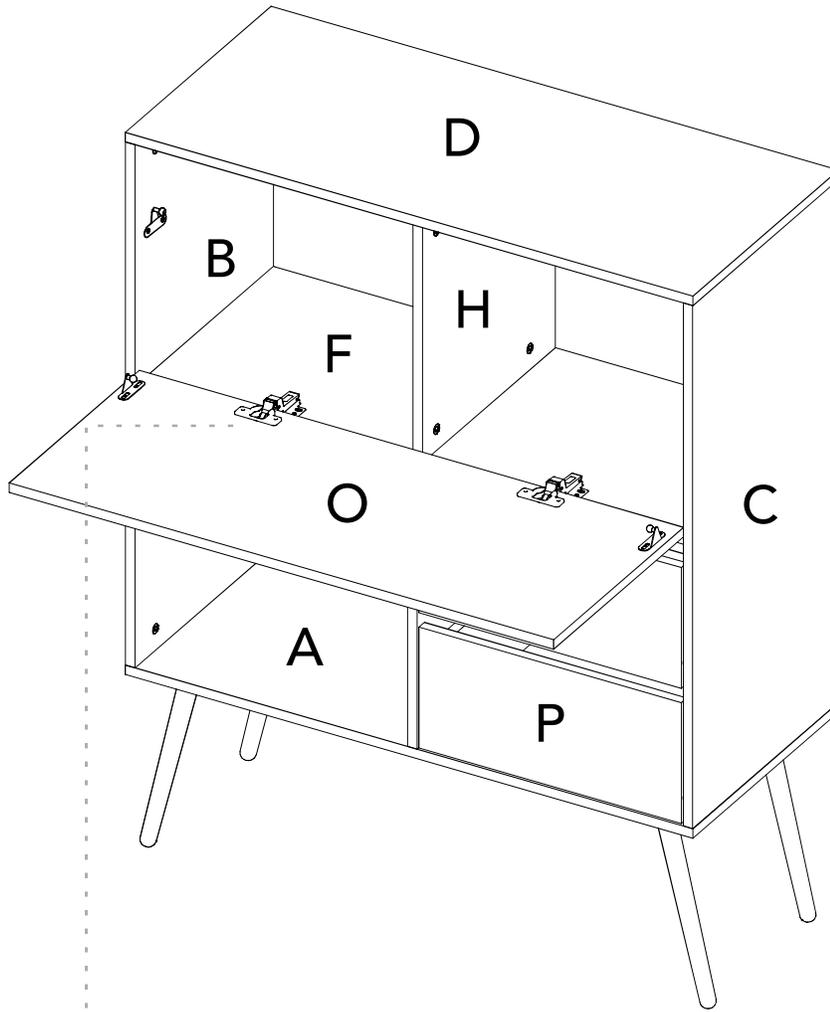

28 x2

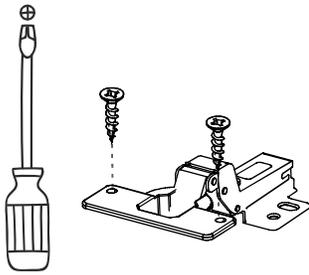

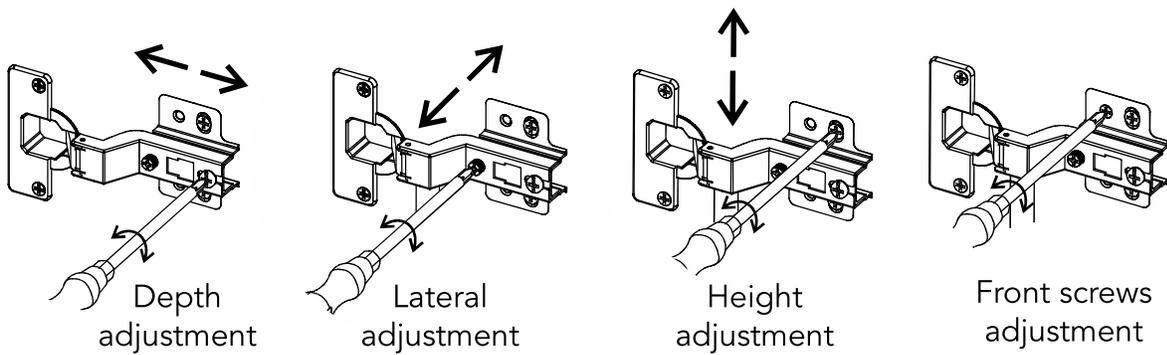

Slide the drawers
inside the cabinet.

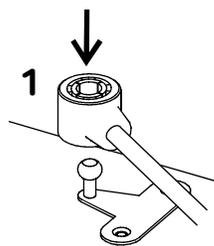

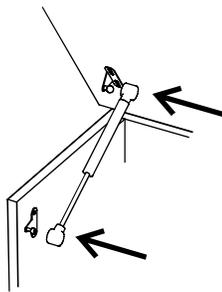

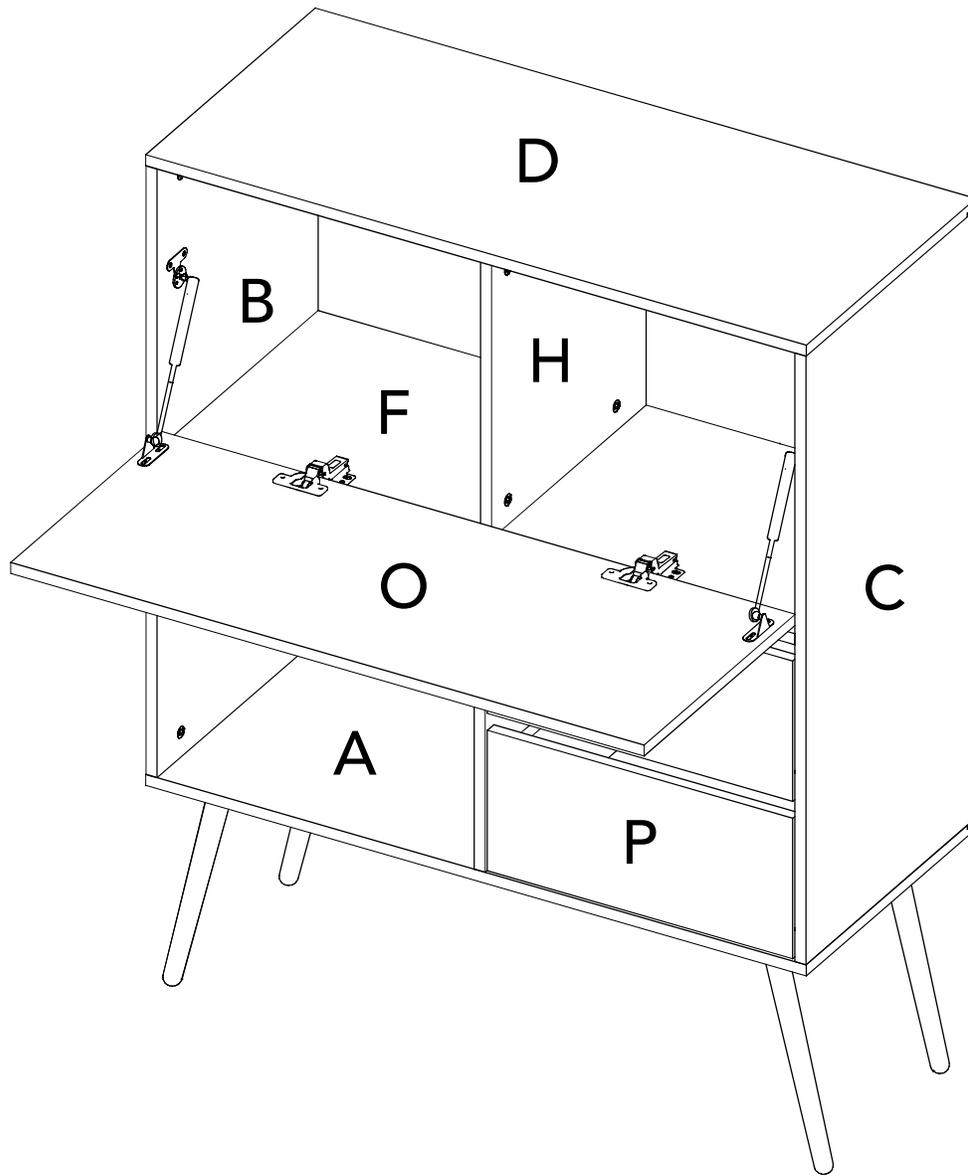

Assembling and setting up the door

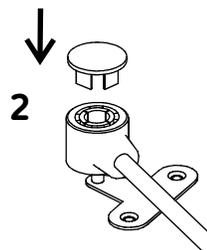

Hinge adjustment

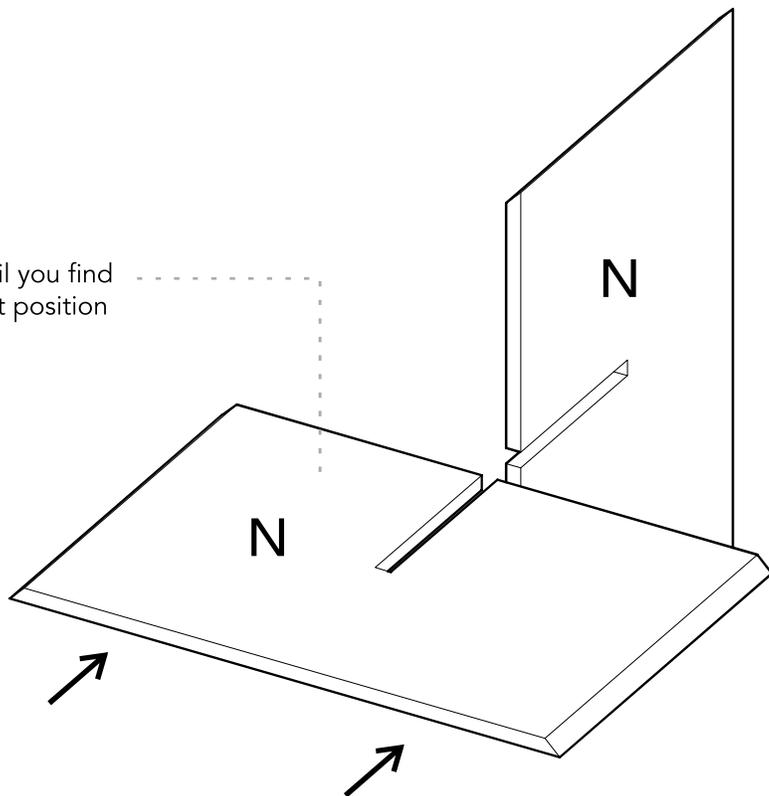

Insert the arm into the pivot

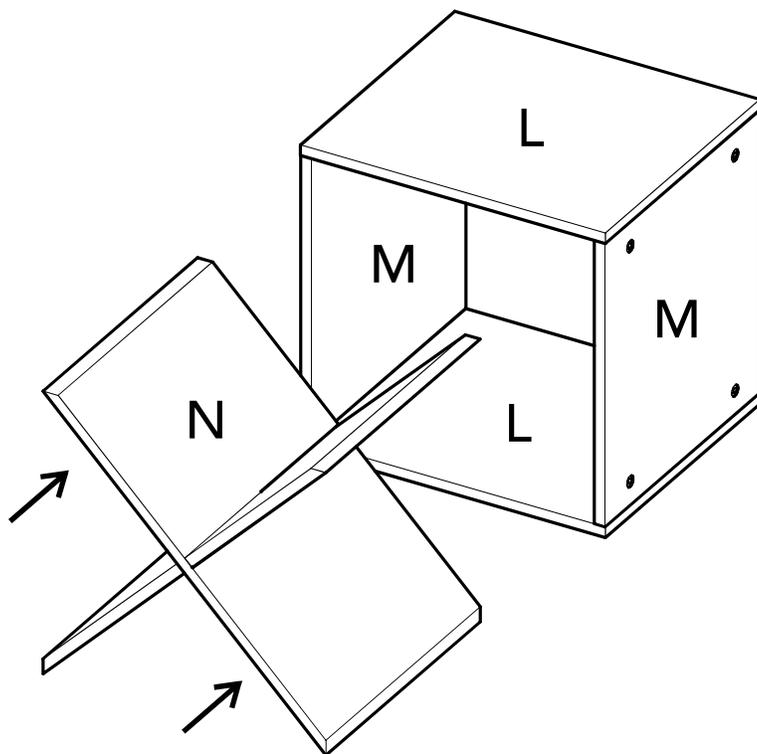

Assemble the caps to secure the arm

32

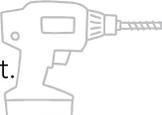

Turn until you find
the right position

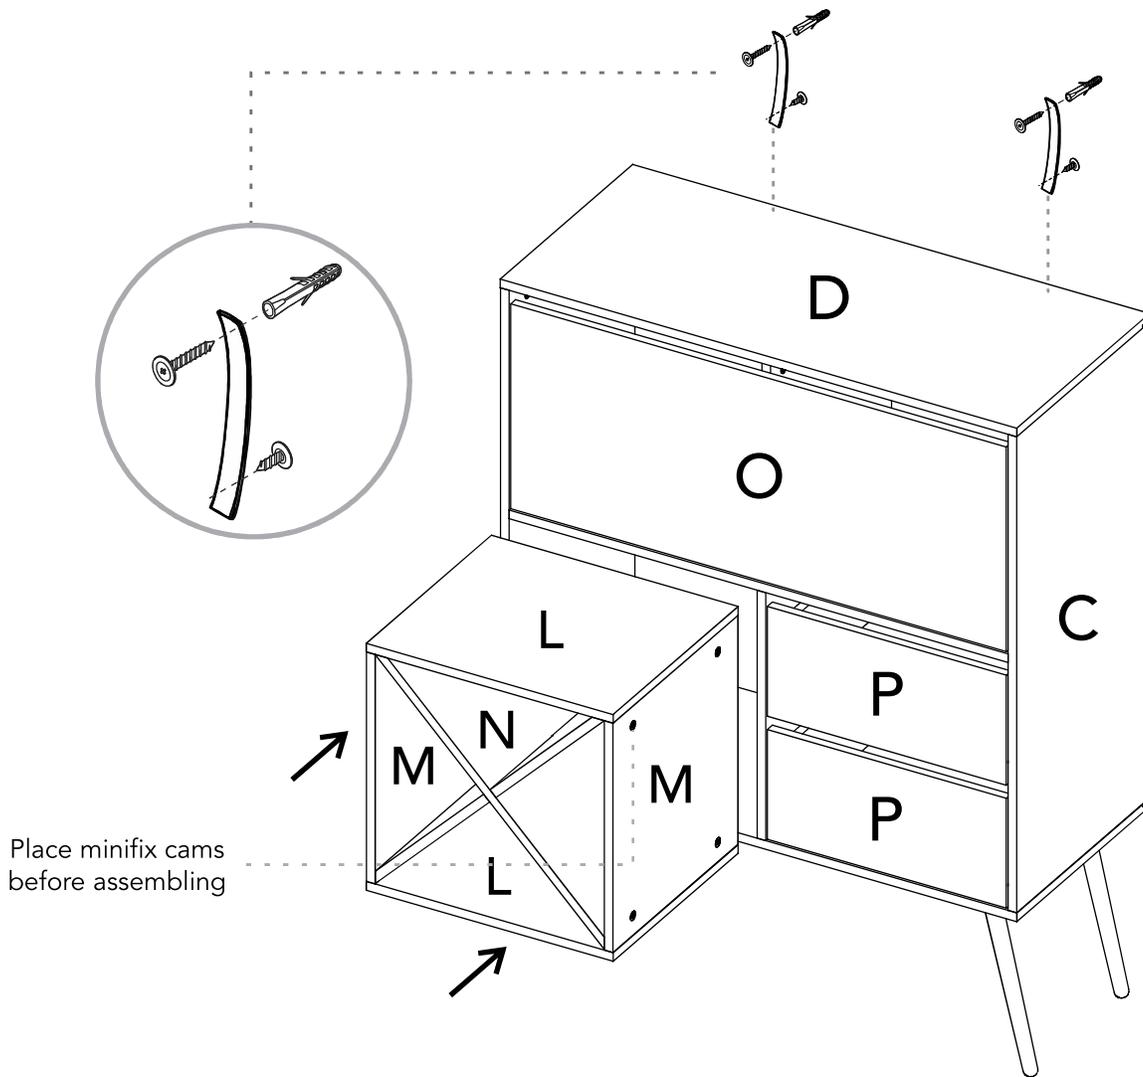

33

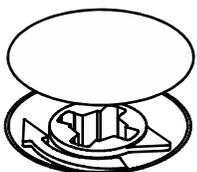

Fix your cabinet to the wall

- 1 Make a small hole on the top edge of the furniture top and fix one side of the strip with the 15mm screw and the washer. 
- 2 Stretch the strip and measure on the wall to drill. 
- 3 Drill a hole in your wall to a depth of 30mm using a 6mm drill bit. 
- 4 Insert the plastic wall anchor into the hole. 
- 5 Fix the other side of the strip with the screw and the washer. 

Place minifix cams before assembling

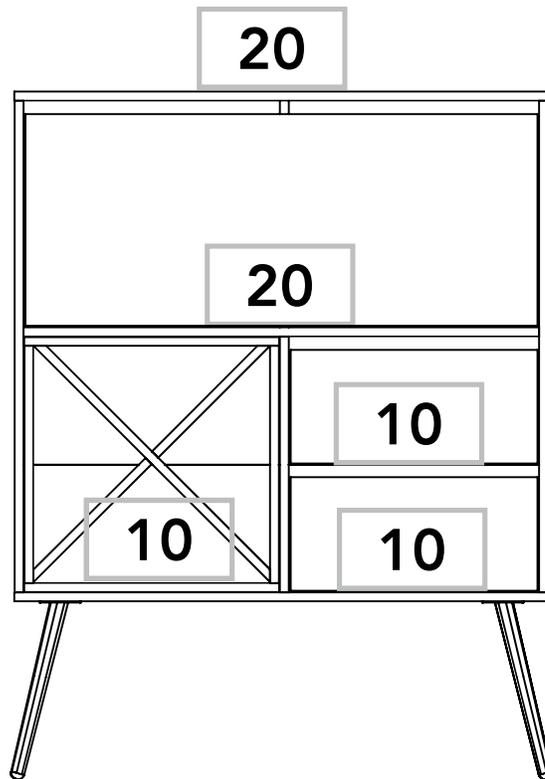

After adjusting all the Minifix cams, cover them up with the cover caps.

After finishing the assembly, lift off all the adhesive letters.

How much weight does my cabinet resist?

*Weight in pounds

**Congratulations!
It's done**

But don't go yet!

There are some
recommendations left for you
to take care of your cabinet
correctly from now on.

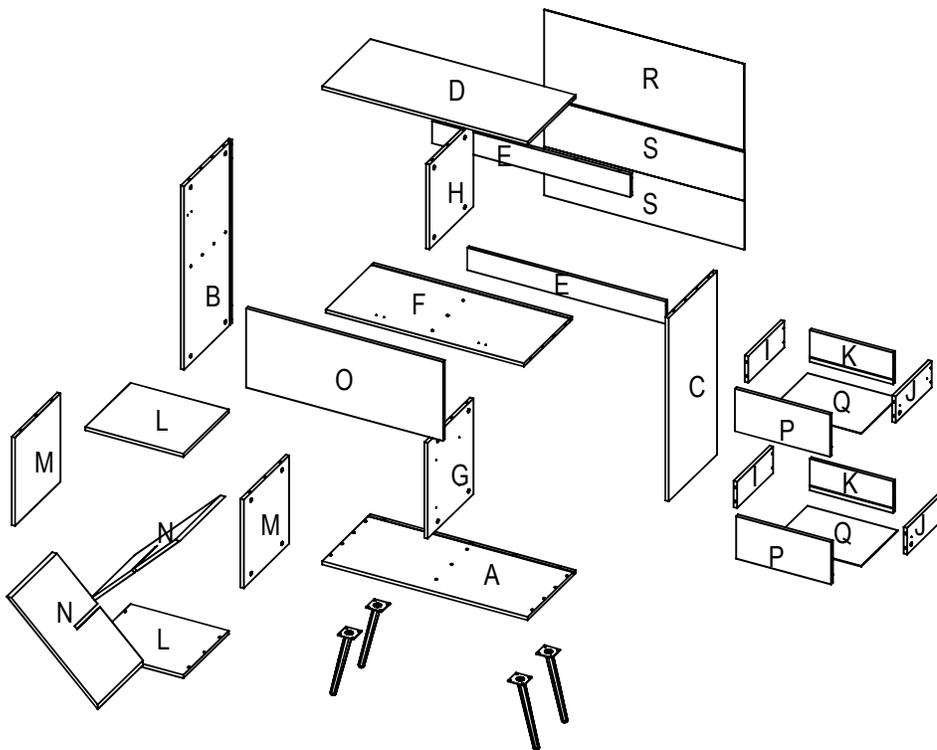

SUPER IMPORTANT!

We suggest fixing the cabinet to the
wall, so we can avoid the cabinet
tipping and harming anyone.
Be specially careful with the kids.

Taking care of your cabinet:

- Do not paint the cabinet.
- The cabinet it's exclusively for indoor spaces. Do not expose it to the direct sun.
- Clean the metallic hardware with a dry cloth.
- DO NOT overload the cabinet (see suggested loads)
- Do not hit or hammer the cabinet (only when indicated here).
- Clean it with thinner, a soft soap solution or simply a damp cloth.
- Don't drag the cabinet, lift it up with other people.
- Avoid direct contact with water, fire or exposing it to high heat.

WARRANTY POLICY

PÓLIZA DE GARANTÍA

Furniture has a 3 year warranty coverage in wooden parts and 1 year warranty coverage in hardware pieces since its manufacturing date, which you can see in the lot number printed on the product box and the assembly instructions leaflet.

Warranty covers materials and workmanship imperfections which impair the assembly or correct functioning of the cabinet.

This warranty is not valid if the defects or imperfections are caused by the incorrect following of the assembly instructions, warnings and recommendations, misuse, intentional damage, fire or flood, or after modifications or any kind of alteration, or repaired by someone not authorized by Furniture, when it's been assembled 3 months after the date of purchase. These defects **MUST** be reported before the warranty coverage period ends. Once the product has been assembled, the company will not be responsible for defective and/or damaged parts.

This warranty is **ONLY** valid for the **ORIGINAL PURCHASER**, it doesn't apply if the product has been resold, rented, etc.

Furniture will take no liability for incidental or consequential damages caused to or by the product (This may not apply in your state).

To make this warranty valid you must write to our customer service email describing the product defect, lot number and submitting your sales receipt or proof of purchase, or contact us at our customer service line. Replaced parts will be under the product's original warranty coverage period. Damaged parts will become property of the company.

There are no other warranties applicable to this product.
