Vienna Single Handle Pull Down Kitchen Faucet with 360 Degree Rotation

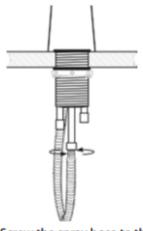

INSTALLATION INSTRUCTIONS

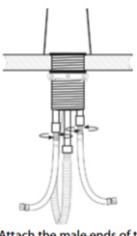

1. Place the new faucet in position through the faucet hole of the sink.

2. From under the sink, attach the plastic rings onto the faucet base, followed by the lock nut. Then tighten the two screws on the lock nut to secure the faucet body in place.

3. Screw the spray hose to the spray hose pipe.

4. Attach the male ends of the flexable hoses to the hot and cold brass pipes on the faucet
