REFLECTION MIRROR CEILING TILES

Safe, Lightweight and Visually Stunning

Reflection Mirror Ceiling Panels from Ceiling Panels Direct provide a quick and easy way to give your traditional drop ceiling a crystal clear mirror finish. The panels are made from 1mm thick acrylic, which is strong enough to eliminate any sagging while still being lightweight. The glassless panels are safe for any application.

Features and Benefits

- » 1mm thick acrylic panels with mirror finish
- » Lightweight and safe, glassless panels
- » Standard 2' x 2' - Lay-in mirror ceiling panels for standard 15/16" ceiling grid
- » Peel coat on face to protect mirror finish during shipping and installation
- » Easy to cut with a simple utility knife (score and snap)
- » Panels can be laid in on their own or you can leave your existing tiles in place behind them to weigh them down and prevent any uplift
- » Common applications: retail stores (security), nightclubs, casinos, lobbies, and workout facilities
- » 2' x 4' lay-in panels available upon request - contact us for more details
- » We do not recommend adhering the panels to a ceiling or wall with glue.
- » Free shipping on all orders
