

JONATHAN ADLER

THEBES COLLECTION

Our modern interpretation of the decorating staple, which dates back to the reign of the pharaohs. Updated with a brass framework and a spacious seat woven with strips of hardworking black leather.

CARE INSTRUCTIONS

- Exposure to moisture can cause leather to warp and stretch. Wipe spills immediately.
- Avoid contact with hot items.
- Clean using a soft, dry microfiber cloth.
- Never use cleaners with alcohol or solvents on metals as they may damage the surface and finish. If your metal shows signs of significant wear, consult with a professional.
- Leather is a naturally porous material. Wipe spills immediately. Maintain by keeping away from direct sunlight and fluctuations in temperature. We recommend professional cleaning only.
