. FRONT ELEVATION

. BACK ELEVATION

. TOP ELEVATION

. Adjustments

The options for height adjustment depend on the type of base plate. All adjustments can be made independent of one another.

For depth adjustment, select base plates have worm gear adjustment access through the hinge arm.

Side adjustment

Depth adjustment via worm gear

Height adjustment via base plate

. Reveal

The reveal (R) is the distance required between two doors or between the door and side wall of the cabinet to allow sufficient space for opening the door. The required reveal width (R) depends on the thickness of the door. Most cabinet makers prefer a reveal (R) of between 3mm and 6mm.

Vanity cabinet | removing+adjusting drawers

To remove the drawer/s

- * Extend the drawer
- * Look for the release levers under the drawer, on the sliding bar
- * To release and remove drawer, simultaneously **push the drawer release levers upwards** (both sides at the same time) and slide/lift the drawer away from the tracks.
- * Repeat for each drawer

To replace the drawer/s

- * Fully extend the drawer runner on each side of the cabinet
- * Place the drawer onto the runners ensuring that the drawer is levelled on the tracks, and continue to hold in place (otherwise, the drawer will fall).
- * Keeping the drawer levelled, gently **push the drawer along the runners** into the cabinet until you hear a click.

To adjust the drawer/s

- * To move the drawer up or down, turn the side screw located under the cover plate on each side of the drawer.

These instructions show a vanity cabinet with two drawers. However, the instructions apply to all cabinets and all sizes.

The characteristics and drawer mechanisms are the same for all units.

INSTALLATION GUIDE

Tools Required for Assembly

Wall Preparation

Install 2"x 6" lumber between the wall studs. Desired height: 28".

Vanity Installation

1. Align and level mounting Brackets according to horizontally reinforcement lumber and desired cabinet height.
2. Mount Vanity on to the wall brackets.
3. Add a dap of silicone to the corners of the Cabinet.
4. Gently position and align Counter top Sink onto Vanity.
