# SEE THE DIFFERENCE CARE CAN MAKE

Delivering amazing, unique, designer products to our customers is our goal & our passion at Valley Acrylic. We strongly believe that for every person there exists a luxury bathroom that fits them perfectly & we see it as our responsibility to help them realize that dream!

That is why at Valley Acrylic, we create stylish, long lasting designer products tailored to whatever needs our customers require. With a focus on Canadian quality, innovation, & environmentally friendly product lines, we provide the international bath market with functional art that makes the bathroom your canvas to express your creativity.

*Valley Acrylic, "You dream it, we create it..."*

WHAT VALLEY'S ACRYLIC CAN DO

It can be difficult to decide on what material is right for you when creating your dream space. With the sheer number of options available, one may quickly become dazed and make the wrong decision that will last for years. Creating your dream bathroom is often a major investment of time and money & we at Valley Acrylic, hope to help you find the products and materials that are right for you, the first time; getting a product that will stand the test of time & remain looking beautiful & functional for many years to come.

## Valley's Crack Resistant Acrylic Process

Valley's crack resistant acrylic is one of the most durable, long lasting materials on the market today. Valley Acrylic sources high quality acrylic sheets with colour extending through the entire 3mm thick material; ensuring that your product never fades or blemishes for as long as you own it. Our Valley artisans can then create both bath and shower products by pure vacuum-forming these sheets into any custom size or configuration our customers may need utilizing our in-house mold making capability.

These acrylic products are then given a back coating with a fiberglass & resin mixture; backed by real Canadian wood. This adds additional strength & rigidity to your product; ensuring that your it is highly resistant to the rigors of everyday use, chips and cracks.

Besides strength, and longevity Valley's acrylic products are cost effective, easy to install in under one day, and highly resistant to build-up of mildew and bacteria making upkeep easy with simple soap and water.

# Easily Install Valley's Acrylic Products

Valley Acrylic bathtubs & shower bases come ready to install out of the box. Using innovative design approaches, our products are extremely easy to install in your home in less than a day. Although we always recommend hiring a qualified plumber to ensure a proper installation & performance from your products, we include detailed installation instructions with each purchase.

Valley Acrylic was recognized in 2017 for our products' ease of installation & design by the Canadian Design & Construction Report. We specialize in creating highly customizable product lines that work for our customers' unique needs. With custom sizes, drain locations, thresholds, and more, there is no job we can't create a solution for.

## The Valley Acrylic Experience

When you buy Valley's acrylic products, you know that you are getting an unparalleled quality, service & a beautiful, environmentally friendly designer product made to YOUR specification.

Valley products are long lasting, and durable; keeping their shine & luster their entire lives. Unlike our acrylic bath products, standard fiberglass, or spray finish bath products have gel coats which are susceptible to cracks, fading and scratches. Our colour extends entirely through our acrylic products ensuring their beauty never fades.

## Hassle Free Maintenance

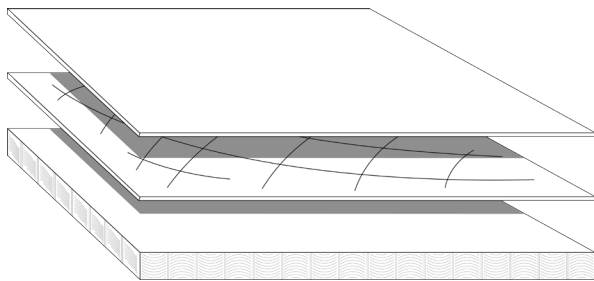

Our 100% acrylic products are hassle free when it comes to maintaining their sleek look. Valley's acrylic products are non-porous, and entirely leak-proof meaning no more mould, mildew & mineral build-ups. Put an end to endless scrubbing and harsh chemicals and spend more time on relaxing with your purchase; a light, occasional round of soap and hot water is all you need to keep your product looking brand new for years!

\*No fading & mildew for the life of your product

# The Advantages of Valley's Acrylic Products

- High Quality North American, 3mm thick, crack-resistant acrylic.
- Products are hand-made in Mission, BC, Canada to ensure lifetime quality of your product.
- Acrylic products are more affordable than bath products of other materials.
