Sonos is the world's leading wireless Home Sound System that fills all the rooms in your home with high-quality streaming music, movies, and TV. Sonos streaming music players and wireless speakers fit cohesively with Crestron® home automation solutions, allowing touch screen access to a wide variety of streaming music services, and enabling audiophile-quality wireless audio throughout the home. To simplify purchasing and integration of our combined powerhouse technologies, Crestron is proud to offer the complete line of Sonos products, now available for purchase through Crestron dealers (in the United States only).

Power your entertainment with the versatile Sonos Amp. As a member of the Sonos sound system, the Amp easily connects to other Sonos equipment or your speakers, turntable, or TV. The compact design allows the Amp to blend in with your home or stack in a rack.

125 watts per channel. Model FT2A-CBLR-1T-4K-HD provides a retractable High-Speed HDMI® cable with a male HDMI Type A connector at both ends.

HDMI® ARC. Add stereo or surround sound to your TV for shows, movies, and games.

AirPlay® software feature. Send the sound from your iPhone® or iPad® mobile digital device to your home sound system.

Take the sound outside. Power your outdoor speakers and easily expand your home sound system to the backyard.

SPECIFICATIONS

Communications

Wi-Fi® communication: Connects to your home Wi-Fi network with any 802.11 b/g/n router. 802.11n only network configurations are not supported—you can either change the router settings to 802.11 b/g/n or connect a Sonos product to your router.

Ethernet ports: Dual Ethernet ports can connect Amp to a wired home network and allow for connection of additional Sonos players.

Audio

Class-D digital amplifier: 125W/Ch at 8 ohms

Line-In Sources Supported: Audio device with analog RCA output or optical output (optical adaptor required). TV device with HDMI® ARC or optical output (optical adaptor required).

Subwoofer output: Auto-detecting RCA type, user-adjustable 50-110 Hz crossover.

Speaker output connections: Banana plugs (2) capable of stereo or dual mono sound.

Adjustable bass and treble controls to optimize sound performance: Adjust volume by individual room or by groups of rooms.

System requirements

Passive speakers with speaker wire, broadband internet, and Sonos® app.
