

Bidet INSTALLATION INSTRUCTIONS

Swiss Madison®
well made forever

@SwissMadison
#WellMadeForever

PRIOR TO INSTALLATION:

- Inspect bidet to ensure no damages have occurred while in shipping.
- Observe all plumbing and building codes in accordance with your state and local requirements.
- All dimensions are nominal! Be sure to measure your bidet prior to installation.
- The step-by-step guidelines in the installation instructions are a general reference. Should there be any discrepancies, Swiss Madison cannot be held liable. It is recommended to install all Swiss Madison products by hiring a licensed professional.
- Read installation and maintenance instructions thoroughly before installing. Be sure to use proper tools and always wear proper personal safety accessories for your protection.
- Two people are recommended to handle and install this product as it is fragile.
- The Bidet cannot be installed on an outside exterior wall.
- A minimum 14" access panel behind the wall where the unit is mounted will be required for installation and service.
- Please check with your local codes to see if a mixing valve is required for your bidet installation, to avoid scalding.

SUGGESTED TOOLS & MATERIALS:

Safety Glasses

Putty Knife

Wrench

Level

Flexible Supply Tube

Hacksaw

Tape Measure

Sealant

Screwdriver

INCLUDED PARTS:

Bidet

Mounting Hardware

BACK-TO-WALL INSTALLATION:

1. Rough-In

- For a side by side toilet/bidet installation, it is required to have a separation of 24" (610mm) between units.
- Trap is not included. For installation of a trap in the floor, provisions must be made.
- Water supplies need to be at least 6" (152mm) to the left and right of the bidet center line.
- The correct drain center will need to be drilled through the floor and sleeved (9" from finished wall) in the center of bidet.
- Install faucet (not included) according to manufacturer's instructions before installing bidet.

3. Secure Bidet

- Place wood screws through the plastic snap-on bases then through the screw holes at the base of the bidet. With a screwdriver, tighten the screws 1/2 turn. Do not overtighten as you may crack the ceramic.
- Snap on bolt caps.

2. Set Bidet

- Carefully set the bidet while making sure that the drain tube is inserted into the waste pipe. Assure the bidet is centered and level.
- Temporarily set bidet and install provided brackets to secure later. It is best to stencil an outline of the bidet on the floor and make measurements accordingly to fasten the brackets underneath the bidet.

4. Connect Water Supply

- Make sure the 1 1/2" trap is attached to the drain in the bottom of the bidet through access panel.
- Connect water supply, it is recommended to have hot and cold water shutoffs. A mixing valve may be required to meet your local plumbing codes.
- Turn on water and check for leaks.
- Apply a bead of sealant between bidet, wall and floor to seal.

ONE YEAR LIMITED WARRANTY

Swiss Madison® products are made with quality materials and excellent craftsmanship to provide our customers with beautiful, durable, long-lasting products. Should there be any defects in materials or craftsmanship under regular use that are discovered within the first year of installation, Swiss Madison® will provide replacement parts at no charge, or at its discretion, replace any product or part of the product that is deemed defective, under normal installation, use, service or maintenance. This warranty applies only to the original purchaser. Proof of purchase will be required in the instance of a claim.

Swiss Madison® recommends all installations of Swiss Madison® products to be conducted by a licensed, professional plumber or contractor. Swiss Madison® will not be held responsible for any damage or product failure due to improper installation, misuse, or failure to utilize a licensed professional for installation. Swiss Madison® is not responsible for any installation or removal costs.

This One Year Limited Warranty Will Be Voided If:

- The installation recommendations were not followed by the installer
- The product has been moved from its initial place of installation
- The product has in any way been modified from its packaged state
- The product has been subjected to improper maintenance, abuse, misuse, excessive use of chemicals, accidents, or other damages, etc.

Swiss Madison® makes no implication that its products comply with any local building or plumbing codes. It is the consumer's responsibility and obligation to determine local code compliance prior to and during installation. This warranty extends only to the original purchaser and first consumer.

Swiss Madison® is not responsible for any special, incidental or consequential damages associated with the installation, replacement, return or use of the original purchaser's product. This includes, but is not limited to: freight costs, labor, travel time, lost profit, home damages and other contingent liabilities and costs (including, without limitation, costs associated with 'professionals' or 'experts', investigations, audits, analyses, attorneys and any other professional/hired services).

The Swiss Madison® warranty is a comprehensive and explicit limit of liability. All items not disclosed within the warranty are not addressable within the responsibility of Swiss Madison®. Certain states have variances regarding implied warranties; in those situations, we remain fully compliant.
