installation instructions

Friendly Tip: Take a deep breath going on. This is easy even if you are not used to tools. Just follow these steps to the T, and the outcome will be worth it!

step 1:

Place the shelf (A) on the wall and put a spirit level on it to check its alignment. Adjust till the angle is straight.

step 2:

Once the shelf is in a straight alignment, make marks on the wall through the predrilled holes on the shelf.

step 3:

Drill holes at the points you just marked.

step 4:

Using a hammer, insert wall plugs (C) inside the hole.

step 5:

Place the shelf (A) so that the predrilled holes on it are right above the wall plugs. Fix the screws (B) into the wall plugs over the shelf. Use a screwdriver to make sure they are secure.

Voila! Your shelf is now installed and secure!
