

SIZE GUIDE & TIPS

decor Wonderland
Mirrors for all your reflections

INTERIOR DESIGNER TIPS

- When placing a mirror above a vanity, console table, arm chair or fire place - hang your mirror 6" – 8" above the visual line. This will protect your mirror from water splashes as well.
- Choose a mirror that is 1-2 inches shorter than the width of the countertop of your bathroom vanity
- Make sure that the mirror is **tall enough** so that your head doesn't get cut off when you look into it
- When hanging your mirror above a nightstand, centre the mirror above the night stand
- If your mirror is going on a blank wall, centre it horizontally on the wall space and hang it so the vertical centre is at eye level- usually 60" from the floor
- Hang mirrors with a buddy who can hold things up and give the chance to 'eyeball' your placement
