VS-153-ADA

Installation

- 1. Hold the Grab/Slide bar against the wall in the chosen location. Using a pencil, mark the drill hole positions (4 in total) for the lower and upper mounting brackets. If using as a Grab bar, be sure to fasten securely to a wall stud. (Note: upper mounting bracket height is adjustable)
- To mount the brackets, use a No. 10 (0.1935 inches/5.5 mm) masonry drill bit to make a hole approximately 1 3/8 inches (35 mm) deep. Push the plastic anchors (4 in total) into the drilled holes, unless your mounting to wall studs, where anchors can be omitted. (Note: plastic anchors provided may not be suitable for all types of wall construction, seek professional help if in doubt)
- 3. Fix upper mounting bracket and then the lower mounting bracket to the wall using the four (4) screws provided.
- 4. Push the bracket covers over the mounting brackets while paying close attention to cover orientation for proper placement.

Clean Grab/Slide bar regularly using a non-abrasive liquid bathroom cleaner.
