1. Always use the recommended size mattress or mattress support, or both, to help prevent the
     likelihood of entrapment of falls.
2. Surface of mattress must be at least 5 in.(127mm) below the upper edge of guardrails.
3. Do not allow children under 6 years of age to use the upper bunk bed.
4. Periodically check and ensure that the guardrails, ladder and other components are in their

6. Always use the ladder for entering and leaving the upper bunk.
7. Do not use substitute parts. Contact Jing Xiang Inc. for replacement parts.
