

THE BATTERY

12V 100Ah

The battery is a sealed lead acid battery (SLA) with a capacity of 100Ah at 20°C. It is designed for use in a wide range of applications, including marine, industrial, and automotive. The battery is maintenance-free and has a long service life.

The battery is constructed from high-quality materials and is designed to withstand harsh environments. It has a robust construction and is resistant to vibration and shock. The battery is also resistant to corrosion and has a long service life.
