

Assembly Instructions

Sea Turtle Dance Sculpture

Tools needed:

- 1 each needle nosed pliers or small adjustable wrench
- 1 each small phillips head screwdriver
- pencil for marking the wall
- 2 each 30# mirror or picture hangers

1. Unwrap each turtle sculpture carefully.
2. Lay each piece shell side down on a carpeted floor or other surface that will not scratch the sculpture, please do not lie the pieces down on concrete or other abrasive surfaces. Find the nuts and bolts in the small plastic pouch attached on back.
3. Line the three turtles up in sequence A – C and match each flange on the pipe assembly.
4. Install the two each nuts and bolts into the flanges and tighten down using the screw driver and pliers or wrench.
5. With a helper, turn over and reverse the piece and line up on the intended section of the wall. Mark the locations of the ring hangers and lower the piece.
6. Install standard 30 # picture hangers at the locations of the hanger marks.
7. With a helper, lift piece in place and hang on wall.
8. For maximum affect, sculpture should be well lit. Track or studio style lighting is ideal.

Enjoy.
